Shop for your electric supplier and take control of your electric bill.

You can save money by switching. The amount of savings depends on your utility's Price to Compare and how much electricity you use.

Log on to PAPowerSwitch.com to get all the information you'll need to make an informed decision.

You can also find other energy products, options and services to meet your needs.

Note: Savings and the availability of competitive offers may vary depending on where you live.

Shop for your electric supplier and take control of your electric bill.

If your average monthly usage exceeds 834 kWh per month, saving just 1 cent per kWh could translate into more than \$100 a year in savings.

Log on to PAPowerSwitch.com to get all the information you'll need to make an informed decision.

You can also find other energy products, options and services to meet your needs.

Note: Savings and the availability of competitive offers may vary depending on where you live.

Shop for your electric supplier and take control of your electric bill.

Saving just half a cent per kWh could translate into material savings depending on how much electricity you use.

If you use 500 kWh per month you would save **\$30** per year  
If you use 1000 kWh per month you would save **\$60** per year  
If you use 1500 kWh per month you would save **\$90** per year

Log on to [PAPowerSwitch.com](http://PAPowerSwitch.com) to get all the information you'll need to make an informed decision.

You can also find other energy products, options and services to meet your needs.
