The changes to Chapters 3 and 13 allow jurisdictional utilities to make rate case claims based on a fully projected future test year, allow wastewater utilities to allocate a portion of their revenue requirement to the combined wastewater and water utility customer base, and allows water and wastewater utilities, EDCs and NGDCs or a city natural gas distribution operation to petition for a DSIC. The changes to Chapter 33 increase the civil penalties for gas pipeline violations. This Tentative Implementation Order proposes procedures and guidelines to carry out the ratemaking provisions of Act 11 in Chapters 3 and 13.

**RECOMMENDATION:**

That the Commission adopt the Proposed Tentative Implementation Order.
