

**PENNSYLVANIA PUBLIC UTILITY COMMISSION  
HARRISBURG, PENNSYLVANIA 17120**

**Licensing Requirements  
for Natural Gas Suppliers**

**Public Meeting October 14, 2011  
2266832-CMR  
Docket No. L-2011-\_\_\_\_\_**

**STATEMENT OF  
VICE CHAIRMAN JOHN F. COLEMAN, JR.**

I agree with the decision to initiate a proposed rulemaking to review the Commission's regulations governing licensing requirements for Natural Gas Suppliers (NGSs) and to solicit comments from interested parties. However, I am not ready to conclude that the goal of the review is to discontinue the NGS licensing exemption, as stated in the Motion. Rather, as also stated in the Motion, initiating a proposed rulemaking will allow the Commission to receive comments to determine if our NGS licensing requirements conform with the plain language of the Natural Gas Choice and Competition Act and reflect the current business plans of NGSs operating in Pennsylvania.

**Date: October 14, 2011**

**JOHN F. COLEMAN, JR.  
VICE CHAIRMAN**
