

DRINKING WATER WARNING

BOIL YOUR WATER BEFORE USING

HIERVAN EL AGUA ANTES DE USARLA.

ESTE INFORME CONTIENE INFORMACIÓN MUY IMPORTANTE SOBRE SU AGUA POTABLE. TRADÚZCALO O HABLE CON ALGUIEN QUE LO ENTIENDA BIEN

Aqua Pennsylvania, Inc. Flying Hills System PWS ID #3060018

Aqua Pennsylvania, Inc. (Aqua) has issued a precautionary boil order for customers in Buildings #10, 11, 12, 13, 14, 15, and 16 on Fairways Road, Cumru Township, in the Flying Hills water system in Berks County, Pennsylvania.

What should I do?

DO NOT DRINK THE WATER WITHOUT BOILING IT FIRST. Bring all water to a full boil, let it boil for one minute, and let it cool before using, or use bottled water. Boiled or bottled water should be used for drinking, making ice, brushing teeth, washing dishes, and food preparation **until further notice**. Boiling kills bacteria and other organisms in the water.

What happened? What is being done?

A water main break occurred today (Thursday, May 6, 2010) on Fairways Road that caused a loss of pressure. The affected main is being repaired. When water service is restored, Aqua will flush the mains and collect bacteriological samples.

It is not expected that the boil water notice will be lifted until Saturday morning, May 8, 2010 at the earliest when results of the bacteriological samples are available.

Customers with questions about this incident may contact Aqua customer service at 877.987.2782. Updates will be posted beginning on Monday morning by phone message at 888.WATER19 and on our web site at www.aquapennsylvania.com.

We apologize for any inconvenience.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

Date: May 6, 2010
