- A. All Customer/Applicants desiring service under this Tariff shall contact the Company and specifically request the type and nature of service. Upon request, the Company will inform the Applicant about gas supply services offered in its service territory by either providing a list of licensed NGS or referring the Applicant to the Commission for further information. In any circumstance where an application for service under this Tariff involves or is related to an NGS, such application will not be processed by the Company unless the Applicant and/or the Applicant's NGS provides the necessary information relating to service.
- B. A non-residential Applicant for any service under this Tariff will be required to sign an application/agreement for natural gas service unless the Company, in its sole discretion, accepts an oral application from a non-residential Applicant. The Company shall accept an oral application from a residential Applicant, except that the Company may require a written application from a residential Applicant if the Company determines that positive identification or other documentation is necessary. The application information required from a residential Applicant shall include but not be limited to complete name and contact information, including all adults and children living at the service address, employment information and landlord contact information, if Applicant is renting the service address. The methods used by the Company to determine an Applicant's liability for any such previously furnished service may include reference to customer service records of the Company, including scratch pad notes, service contracts, information collected from the Applicant and other members of the household in connection with any help provided by the Company in determining eligibility for and completing applications to various assistance programs. Other methods which may be used by the Company for such purposes include identity authentication services, mortgage, deed or lease information, commercially available consumer credit reporting services and other methods which are or have been approved as valid by the Commission.
