**RE: Application of BP Energy Company for Approval to Offer, Render, Furnish, or Supply Natural Gas Supply Services to the Public in the Commonwealth of Pennsylvania; Docket No. A-125142**

Dear Secretary Chiavetta:

Pursuant to its continuing obligation to report changes in the information provided in its initial application, BP Energy Company ("BP Energy"), a licensed natural gas supplier in Pennsylvania, submits this informational filing to the Pennsylvania Public Utility Commission ("Commission").<sup>1</sup>

Specifically, consistent with Section 62.105 of the Commission's Regulations, please be advised that Orlando A. Alvarez has assumed responsibility as BP Energy's President (See Attachments A, B and C). In addition, BP Energy is submitting this filing to update Attachment B to reflect Frank Vickers' role as a Vice President. BP Energy recently realized that Mr. Vickers had been inadvertently omitted from Attachment B.

Included in this filing are the following:

- Updated "Supplier Company Contacts" Form (Attachment A);
- Updated List of BP Energy's Officers and Directors (Attachment B); and
- Biography of Orlando A. Alvarez, President of BP Energy (Attachment C).

<sup>1</sup> BP Energy received its authority to provide natural gas supplier services by Order entered November 3, 2005.

Rosemary Chiavetta, Secretary  
February 21, 2012

Please contact the undersigned if you have any questions regarding this informational filing. Please date stamp the extra copy of this transmittal letter and Attachments A, B and C, and kindly return them to our messenger for our filing purposes.

Very truly yours,

McNEES WALLACE & NURICK LLC

# Orlando Alvarez

bp

Regional Business Leader  
North America Gas and Power  
BP Energy Company

Orlando A. Alvarez was named president of BP's North America Gas and Power (NAGP) business in November 2011. Based in Houston, Texas, he is responsible for BP's Gas, Natural Gas Liquids and Power trading, marketing, and supply activities in North America, and is a member BP's global Integrated Supply and Trading (IST) executive leadership team.

Orlando has worked for the company more than 15 years, most recently as the COO of Natural Gas, Trading and Marketing. Prior positions include Head of Western U.S., as well as the Gulf Coast and Eastern regions. During this time, he was a key member of the leadership team that built BP's North America Gas & Power merchant business into one of North America's leading players, providing natural gas, power and risk management services to the industrial and utility sectors across the continent. This strategic position has been achieved by combining BP's global trading experience with its role as one of the largest gas producers in North America.

During his 23 years in the natural gas industry, Orlando has held a wide range of commercial positions, including natural gas trader, producer origination, and supply/transportation manager. He acquired further upstream experience by spending three years on the natural gas liquids end of the business, responsible for commercial delivery across a number of processing facilities on the Gulf Coast.

He entered the business in 1988, as an accountant for a major interstate pipeline, and moved into the commercial end of the business in 1991. It was a move into Strategy and Planning, and subsequently into the Supply Performance group, where he was responsible for monitoring and negotiating take-or-pay agreements with producers that prompted his passion for working on deals and encouraged him to consider moving further downstream into marketing and trading.

Orlando was born in Santa Clara, Cuba and came to the United States at the age of 3, where he lived in New York until his move to Texas in 1975. He currently resides in northwest Houston with his two children, Alexis, 17, and Brandon, 14. Orlando attended Lamar University in Beaumont, Texas, where he received a Bachelor of Business Administration degree in accounting.

BP Energy Company is part of the BP p.l.c. group of companies. With a workforce of nearly 100,000 employees, BP operates globally, with business activities and customers in more than 100 countries across six continents. BP has worldwide assets of more than \$200 billion.

- BP is the leading producer of oil and natural gas in the U.S. and the largest investor in U.S. energy development
- BP employs more than 33,000 people in the U.S. and has \$40 billion in fixed assets
- Each year, BP markets more than 15 billion gallons of gasoline through BP, ARCO and Amoco-branded outlets
- Since 2001, BP has invested over \$30 billion in the U.S., including major investments to increase existing energy sources, extend energy supplies and develop new low-carbon technologies
- BP operates the nation's largest fully-integrated solar manufacturing plant where it manufactures solar panels from start to finish

BP's Integrated Supply & Trading (IST) function operates across all of BP's businesses and provides the commercial face of BP to customers and to traded commodity and financial markets. IST provides customers with the energy products and risk management in the areas of oil, gas, power, chemicals and finance.
