1	<b>PA LEC ACCESS CHARGE REDUCTION TEMPLATE</b>													
2														
3	<b>This template applies to companies who are Price Cap Carriers at the Federal Level</b>													
4														
5	This spreadsheet provides an outline of what each PA LEC must file to reduce its Access Charges in Compliance with Step 1 of the FCC Order <sup>1</sup>													
6	to transition carrier access charges to bill-and-keep. These reductions will be effective July 1, 2012													
7														
8	Directions appear on each tab instructing the Companies on what information to provide to the Commission

10	<b>Note:</b>													
11	<b>1. As outlined in Appendix A, 47 C.F.R. § 51.907(b) and § 51.909(b) Companies are to use Federal Fiscal Year 2011 (October 1, 2010 - September 30, 2011)</b>													
12	<b>intrastate access demand data for each of their calculations</b>													
13														
14	<b>2. If your company's intrastate rate structure and interstate rate structure are not the same, Federal Fiscal Year 2011 intrastate demand</b>													
15	<b>for Transitional Intrastate Access Service should be mapped into the interstate rate structure. A full explanation of how this mapping</b>													
16	<b>will be accomplished must be provided</b>													
17														
18	<b>3. If your company's intrastate rates are lower than their functionally equivalent interstate rates you may not make any</b>													
19	<b>tariff filings to increase such intrastate rates</b>													
20														
21	<b>4. Companies must identify which structural option each company will use:</b>													
22	<b>(1) Either maintain the current intrastate rate structure, but set rates at a level that reduces revenue recovery by 50%</b>													
23	<b>of the difference in interstate versus intrastate pursuant to § 51.907(b)(2)(iv) and § 51.909(b)(2)(iv), or;</b>													
24	<b>(2) adopt the interstate rate structure and rate levels under § 51.907(b)(2)(v) and § 51.909(b)(2)(v), adding a new transitional</b>
