PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

Re: **Energy Efficiency and Conservation Program**
Docket No. ~~M-2008-2069887~~ M-2009-2093217

Dear Secretary Chiavetta:

Enclosed for filing please find an original and three (3) copies of Duquesne Light Company's quarterly report for the period December 1, 2011 to February 29, 2012 for its Energy Efficiency and Conservation and Demand Response Plan.

Sincerely yours,

Krycia Kubiak
Assistant General Counsel

Enclosures

Quarterly Report to the Pennsylvania Public Utility Commission

**For the Period
December 2011 through February 2012
Program Year 3, Quarter 3**

RECEIVED

APR 16 2012

Acronyms

CFL	Compact Fluorescent Lamp
CPITD	Cumulative Program/Portfolio Inception to Date
CPITD-Q	CPITD, comprising verified gross PY2 savings and reported gross PY3 savings
CSP	Conservation Service Provider
DLC	Duquesne Light Company
EDC	Electric Distribution Company
EE&C	Energy Efficiency & Conservation
EM&V	Evaluation Measurement and Verification
IQ	Incremental Quarter
IR	Installation Rate
kW	Kilowatt
kWh	Kilowatt-hour
LIEEP	Residential Low-Income Energy Efficiency Program
M&V	Measurement and Verification
MW	Megawatt
MWh	Megawatt-hour
NTG	Net-to-Gross
PA	Pennsylvania
PMRS	Program Management and Reporting System
PUC	Public Utility Commission
PY	Program/Portfolio Year
PY3	Program Year 3 (July 2011 to June 2012)
PY3Q2	Program Year 3 Quarter 2 (9/1/2011 to 11/30/2011)
PYTD	Program/Portfolio Year to Date
REEP	Residential Energy Efficiency Rebate Program
RR	Realization Rate
RARP	Residential Appliance Recycling Program
SEP	Residential School Energy Pledge
SWE	Statewide Evaluator
TRC	Total Resource Cost
TRM	Technical Reference Manual
UES	Unit Energy Savings
VR	Verification Rate

1 Overview of Portfolio

Pennsylvania Act 129 of 2008 signed on October 15, 2008, mandated energy savings and demand reduction goals for the largest electric distribution companies (EDCs) in Pennsylvania. Each EDC submitted energy efficiency and conservation (EE&C) plans—which were approved by the Pennsylvania Public Utility Commission (PUC)—pursuant to these goals. This report documents the progress and effectiveness of the EE&C accomplishments for Duquesne Light Company (Duquesne) in the third quarter of Program Year 3 (PY3), defined as December 1, 2011 through February 29, 2012, as well as the cumulative accomplishments of the programs since inception.

Navigant Consulting, Inc. (Navigant) is evaluating the programs, which includes measurement and verification of the savings. The verified savings for PY3 will be reported in the annual report, to be filed November 15, 2012.

1.1 Summary of Achievements

Duquesne has achieved 63 percent of the May 31, 2013 energy savings compliance target, based on cumulative program inception to date (CPITD) reported gross energy savings¹, and 62 percent of the energy savings compliance target, based on CPITD gross energy savings achieved through Quarter 3 (CPITD-Q)², as shown in **Figure 1-1**.

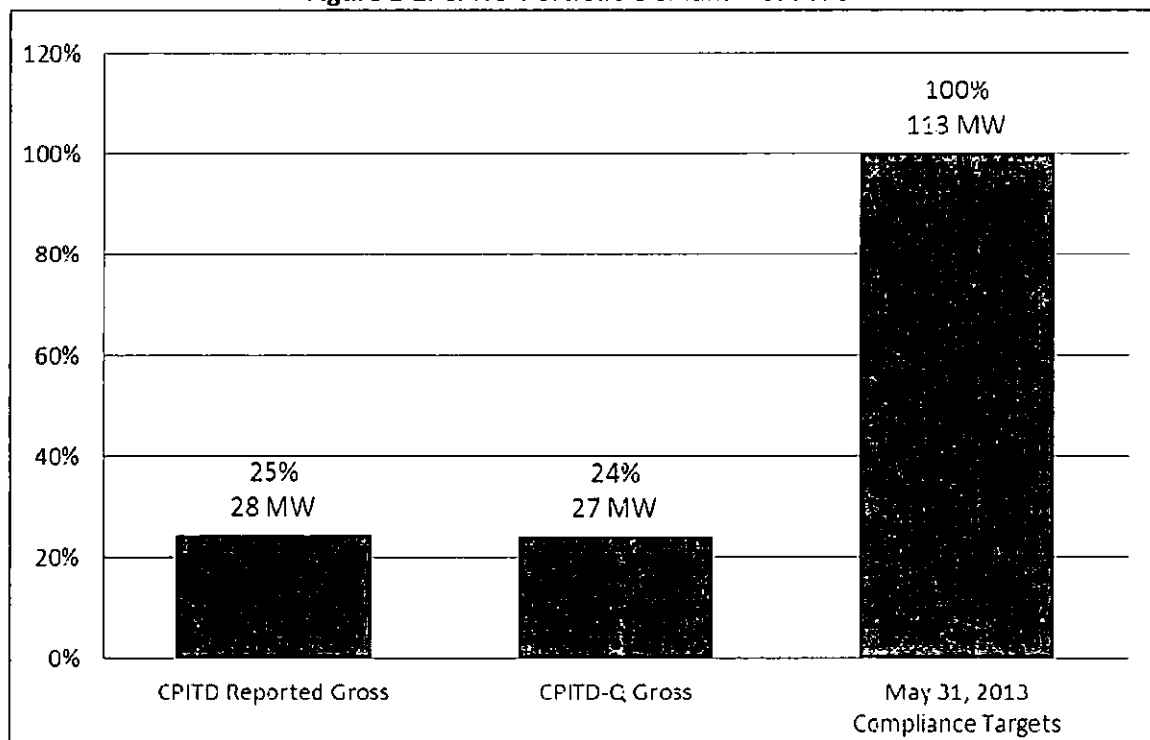

¹ CPITD Reported Gross Savings = CPITD Reported Gross Savings through PY2 + PYTD Reported Gross Savings. All savings reported as CPITD reported gross savings are computed this way.

² CPITD-Q Gross Savings = CPITD Verified Gross Savings through PY2 + PYTD Reported Gross Savings. All savings reported as CPITD-Q gross savings are computed this way. CPITD-Q savings provide the best available estimate of savings achieved through the current quarter. CPITD Verified Gross Savings will be reported in the annual report.

Duquesne has achieved 25 percent of the May 31, 2013 demand reduction compliance target, based on CPITD reported gross demand reduction and 24 percent of the demand reduction compliance target based on CPITD gross demand reduction achieved through Quarter 3 (CPITD-Q), as shown in Figure 1-2.

Figure 1-2. CPITD Portfolio Demand Reduction

There are 26 measures available to the low-income sector. The measures offered to the low-income sector therefore comprise 39 percent of the total 66 measures offered. As required by Act 129, this exceeds the fraction of total electricity consumption in the Duquesne territory divided by the electric consumption of the utility's low-income households (7.88 percent).³ The CPITD reported gross energy savings achieved in the low-income sector is 17,551 MWh; this is 6.6 percent of the CPITD total portfolio reported gross energy savings.

³ Act 129 includes a provision requiring electric distribution companies to offer a number of energy efficiency measures to low-income households that are "proportionate to those households' share of the total energy usage in the service territory." 66 Pa.C.S. §2806.1(b)(i)(G). The legislation contains no provisions regarding targets for participation, or energy or demand savings.

Duquesne achieved 72 percent of the May 31, 2013, energy reduction compliance target for government, nonprofit and institutional sector, based on CPITD reported gross energy savings, and 71 percent of the target based on CPITD gross energy savings achieved through Quarter 3 (CPITD-Q)⁴, as shown in Figure 1-3.

Figure 1-3. Government, Nonprofit, and Institutional Sectors

1.2 Program Updates and Findings

PROGRAM MANAGEMENT AND REPORTING SYSTEM (PMRS) MODIFICATIONS

While no substantive changes were made to Duquesne’s energy efficiency programs, a number of modifications were made to the utility’s EE&C tracking system (PMRS), based on evaluation results. These changes fall into three categories:

- Application of participant-specific savings values for records previously showing only average values (e.g., for the Residential Appliance Recycling Program)

⁴ CPITD-Q Gross Savings = CPITD Verified Gross Savings through PY2 + PYTD Reported Gross Savings. All savings reported as CPITD-Q gross savings are computed this way. CPITD-Q savings provide the best available estimate of savings achieved through the current quarter. CPITD Verified Gross Savings will be reported in the annual report.

- Correction of participant-specific values where those values needed to be updated (e.g., where PMRS had been using values that have been modified in the current Technical Reference Manual)
- Date corrections

DEMAND RESPONSE PROGRAM

Duquesne Light has an agreement with Comverge, Inc. to implement a direct load control program for central air conditioners and electric water heaters for residential homeowners. Comverge is also implementing a direct load control program targeted at small and mid-sized commercial and industrial facilities for air conditioner cycling. Installations as of the end of February 2012 totaled 802 air conditioning units, all in residential dwellings. The target is for up to 1,500 units installed by the summer of 2012 for the entire direct load control program.

The Curtailable Load Program was launched in November 2011 under an agreement with EnerNOC, Inc. The program is targeting 60 megawatts (MW) of curtailable load from large commercial and industrial facilities to be called upon during the summer of 2012. As of the end of February 2012, a total of 2.4 MW have been enrolled from four facilities.

No other specific Energy Efficiency and Conservation Plan or program improvements have been implemented in this quarter.

1.3 Evaluation Updates and Findings

A verification sampling plan has been submitted to the Statewide Evaluator for review and approval. The non-residential portion has been accepted, and Navigant awaits comments or approval regarding the residential portion from the Statewide Evaluator. The sample design includes the following modifications from the sampling strategy that had been approved for use in Program Year 2 verification work:

- **COMMERCIAL PROGRAM GROUP** – Navigant will include an additional sample group in its non-residential sampling strategy – commercial sector projects falling into the Government, Non-profit and Institutional segments – per the Statewide Evaluator’s Audit Plan⁵ requirement that these segments must be treated as their own program if their previous year’s savings account for greater than 20% of total sector (non-residential) savings.
- **RESIDENTIAL ENERGY EFFICIENCY REBATE PROGRAM GROUP (REEP)** – Navigant is stratifying the Residential Energy Efficiency Rebate Program (REEP) participant sample into efficiency kit

⁵ *Audit Plan and Evaluation Framework for Pennsylvania Act 129 Energy Efficiency and Conservation Programs*, Prepared by The Statewide Evaluation Team: GDS Associates, Inc., Nexant, & Mondre Energy Contracted Under the Pennsylvania Public Utility Commission’s RFP 2009-1 for the Statewide Evaluator, Revised, November 4, 2011, pg. 75.

participants and non-efficiency kit participants. The purpose is to obtain better precision from realization rate estimates.

- **LOW INCOME ENERGY EFFICIENCY PROGRAM (LIEEP)** – Navigant is stratifying the Low Income Energy Efficiency Program participant sample into REEP efficiency kit, REEP rebate, refrigerator replacement, Residential Appliance Recycling Program, and School Energy Pledge participants. Again, the purpose is to obtain better precision from realization rate estimates.
- **DEMAND RESPONSE PROGRAMS** – Navigant has begun planning for the evaluation of Duquesne’s demand response programs, discussing data requirements and implementation plans with Duquesne’s demand response CSPs (Comverge and EnerNOC) to ensure that the evaluation will be able to produce results with the appropriate accuracy and precision. The evaluation approach for both the direct load control program and the curtailable load program will be finalized and presented to the SWE for review.

On-site verification work is underway for non-residential projects and measures selected from Program Year 3 Quarter 1 and 2 program participation. Residential program group telephone survey instruments used for Program Year 2 verification work are being reviewed to determine whether modifications are needed prior to implementation.

2 Summary of Energy Impacts by Program

A summary of the reported energy savings by program is presented in Figure 2-1.

Figure 2-1. CPITD Reported Gross Energy Savings by Program

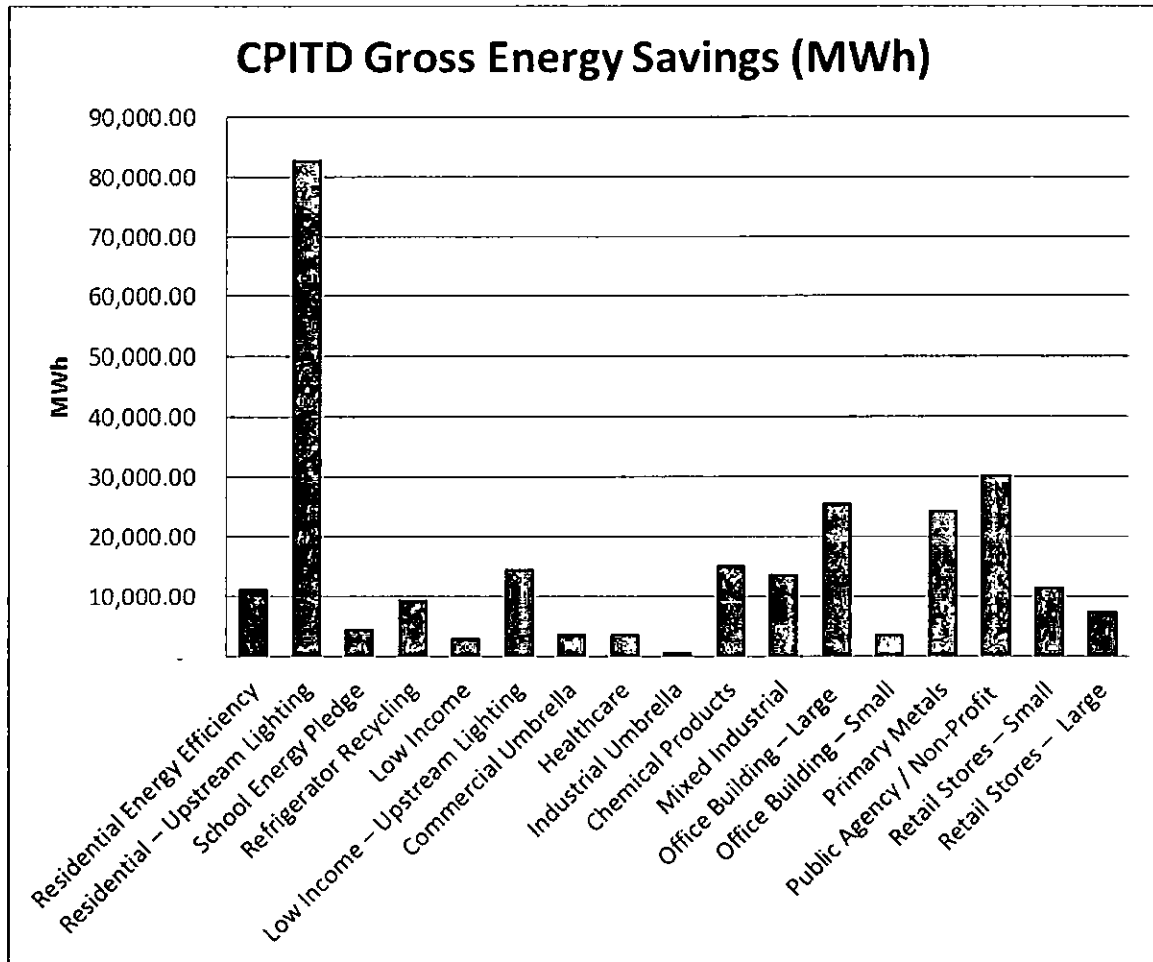

Figure 2-2. CPITD-Q Reported Gross Energy Savings by Program

A summary of energy impacts by program through the PY3Q3 is presented in Table 2-1.

UPS CampusShip: View/Print Label

1. Ensure there are no other shipping or tracking labels attached to your package. Select the Print button on the print dialog box that appears. Note: If your browser does not support this function select Print from the File menu to print the label.
2. Fold the printed sheet containing the label at the line so that the entire shipping label is visible. Place the label on a single side of the package and cover it completely with clear plastic shipping tape. Do not cover any seams or closures on the package with the label. Place the label in a UPS Shipping Pouch. If you do not have a pouch, affix the folded label using clear plastic shipping tape over the entire label.
3. **GETTING YOUR SHIPMENT TO UPS**
 UPS locations include the UPS Store®, UPS drop boxes, UPS customer centers, authorized retail outlets and UPS drivers.
 Find your closest UPS location at: www.ups.com/dropoff
 Take your package to any location of The UPS Store®, UPS Drop Box, UPS Customer Center, UPS Alliances (Office Depot® or Staples®) or Authorized Shipping Outlet near you. Items sent via UPS Return Services(SM) (including via Ground) are also accepted at Drop Boxes. To find the location nearest you, please visit the Resources area of CampusShip and select UPS Locations.

Customers with a Daily Pickup
 Your driver will pickup your shipment(s) as usual.
