

September 22, 2012

Rosemary Chiavetta, Esq., Secretary
Pennsylvania Public Utility Commission
Commonwealth Keystone Building
400 North Street, 2nd Floor
Harrisburg, Pennsylvania 17120

RE: Comments on Reconsideration of Act 129 Phase II Implementation Order, Docket Number M-2012-2289411, Submitted by Sierra Club on Behalf of the Undersigned

Dear Secretary Chiavetta and Pennsylvania Public Utility Commissioners:

As Pennsylvania electricity bill payers, we strongly urge the Pennsylvania Public Utility Commission to maintain the consumption reduction targets for Phase II energy efficiency programs, as set in the August 3rd Final Order. We oppose attempts by utilities to reduce these targets or the funding available for programs to meet these targets.

The targets should be readily achievable by the utilities, as they are based on conservative cost assumptions, and utilities will be able to carry over excess credits from the previous phase of the program. We also oppose the attempts by the utilities to undermine the ability of the Commission to impose penalties on utilities that fail to meet their consumption reduction targets.

Energy efficiency is critical to ensuring Pennsylvania's long-term economic competitiveness, as well as protecting residents and businesses against energy price volatility. Energy efficiency projects create jobs directly, and indirectly as bill payers save money and spend it elsewhere in the economy. To date, projects resulting from the state's energy efficiency program have produced benefits that outweigh costs by an 8 to 1 margin. We urge the Commission to maximize this return on investment by keeping the August 3rd Final Order intact.

Sincerely,
The 2,045 Undersigned Residents of Pennsylvania
