ANNUAL REPORT - YEAR 2002

RECEIVED

Electric Generation Sales (kWh) & Supply by Energy Source
(Based on Total Retail Sales in Pennsylvania)

03 APR 29 PM 3:38

Pursuant to 52 Pa. Code § 54.39(b) and 52 Pa. Code § 54.6,

Jack Rich, Inc. at
(Name of Company)

617 ALTAHONT BLVD., FRACKVILLE, PA 17931

reports the following electric generation attributes for the following calendar year:

(City)

(State)

Year	TOTAL RETAIL SALES (kWh)	Coal (%)	Nuclear (%)	Oil (%)	Hydro-power (%)	Natural Gas (%)	Renewable (%)
2002			NONE				

Detailed Break-down of Renewable Source by Technology (if any reported above)

See 52-Pa. Code § 54.39 (b)(4).

DOCKETED

Technology	Percent Renewable Energy Supplied (%)	Total Renewable Energy Supplied (kWh)
Solar Photovoltaic Energy		
Solar Thermal Energy		
Wind Power		
Low-Head Hydropower		
Geothermal Energy		
Landfill or Other Biomass-based Methane Gas	NONE	
Mine-based Methane Gas		
Energy from Waste		
Sustainable Biomass Energy		
Other (Name)		
Other (Name)		
Total Renewable Sources	*100%	

NOTE to the Consumer: Electricity is the product of a mix of generation energy sources that is delivered over a system of wires. This report reflects the estimated percent of total sales based on the primary fuel source used in the generation of electricity for customer end-use in the Commonwealth of Pennsylvania. Some generators may use a combination of fuel sources, such as oil and coal or oil and natural gas, which may be combined or used alternatively. In this instance, only the primary fuel source is reported. Data may also include negative sales for pumped storage hydroelectric operations, which could require the use of any fuel source except hydropower. If any supply source includes Distributed Generation or Combined Heat and Power, the applicable categories will be marked "DG" and/or "CHP." If net metering is deployed, an asterisk (*) appears within the applicable categories. Upon request by the consumer, electricity providers are required to provide information on generation energy sources, energy efficiency, environmental impacts or personal historical billing data.

NOTE to the Entity filing this report: Please review above "Note to the Consumer" for important information needed to adequately complete this form. Verification of the anticipated generation energy source, of the identifiable resources (if and when they have been "claimed") and the fact that energy characteristics were not sold more than once, shall be conducted by an independent auditor at the end of each calendar year and contained in this annual report to the Commission. If generation energy sources are not identifiable, the provider shall disclose this fact.
