VIA OVERNIGHT MAIL

Rosemary A. Chiavetta, Secretary
Pennsylvania Public Utility Commission
Commonwealth Keystone Building, 2nd Floor
400 North Street
Harrisburg, PA 17120

RECEIVED

OCT 15 2012

**PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU**

**Re: Energy Efficiency and Conservation Program
Docket No. M-2008-2069887**

Dear Secretary Chiavetta:

Enclosed for filing please find an original and three (3) copies of Duquesne Light Company's quarterly report for the period June 2012 through August 2012 for its Energy Efficiency and Conservation and Demand Response Plan.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Dave Defide', written over a horizontal line.

Dave Defide
Manager, Customer Programs

Enclosures

Quarterly Report to the Pennsylvania Public Utility Commission

**For the Period
June 2012 through August 2012
Program Year 4, Quarter 1**

For Pennsylvania Act 129 of 2008
Energy Efficiency and Conservation Plan

RECEIVED

OCT 15 2012

PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

Prepared by Navigant Consulting, Inc.

For

Duquesne Light Company

SWE	Statewide Evaluator
TRC	Total Resource Cost
TRM	Technical Reference Manual
UES	Unit Energy Savings
VR	Verification Rate

1 Overview of Portfolio

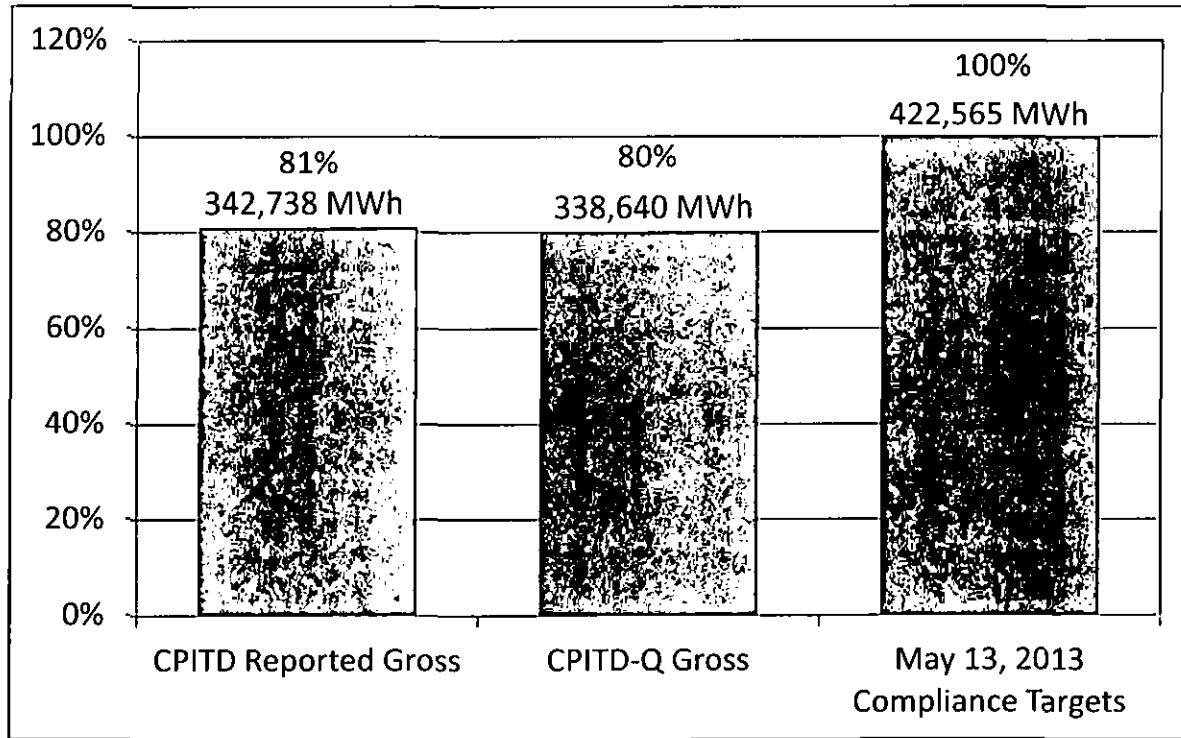

Pennsylvania Act 129 of 2008 signed on October 15, 2008, mandated energy savings and demand reduction goals for the largest electric distribution companies (EDCs) in Pennsylvania. Each EDC submitted energy efficiency and conservation (EE&C) plans—which were approved by the Pennsylvania Public Utility Commission (PUC)—pursuant to these goals. This report documents the progress and effectiveness of the EE&C accomplishments for Duquesne Light Company (Duquesne) in the first quarter of Program Year 4 (PY4), defined as June 1, 2012 through August 31, 2012, as well as the cumulative accomplishments of the programs since inception.

Navigant Consulting, Inc. (Navigant) is evaluating the programs, which includes measurement and verification of the savings. The verified savings for PY4 will be reported in the annual report, to be filed November 15, 2013.

1.1 Summary of Achievements

Duquesne has achieved 81 percent of the May 31, 2013 energy savings compliance target, based on cumulative program inception to date (CPITD) reported gross energy savings¹, and 80 percent of the energy savings compliance target, based on CPITD gross energy savings achieved through Quarter 1 (CPITD-Q)², as shown in Error! Reference source not found..

Figure 1-1 Cumulative Portfolio Inception to Date (CPITD) Energy Impacts

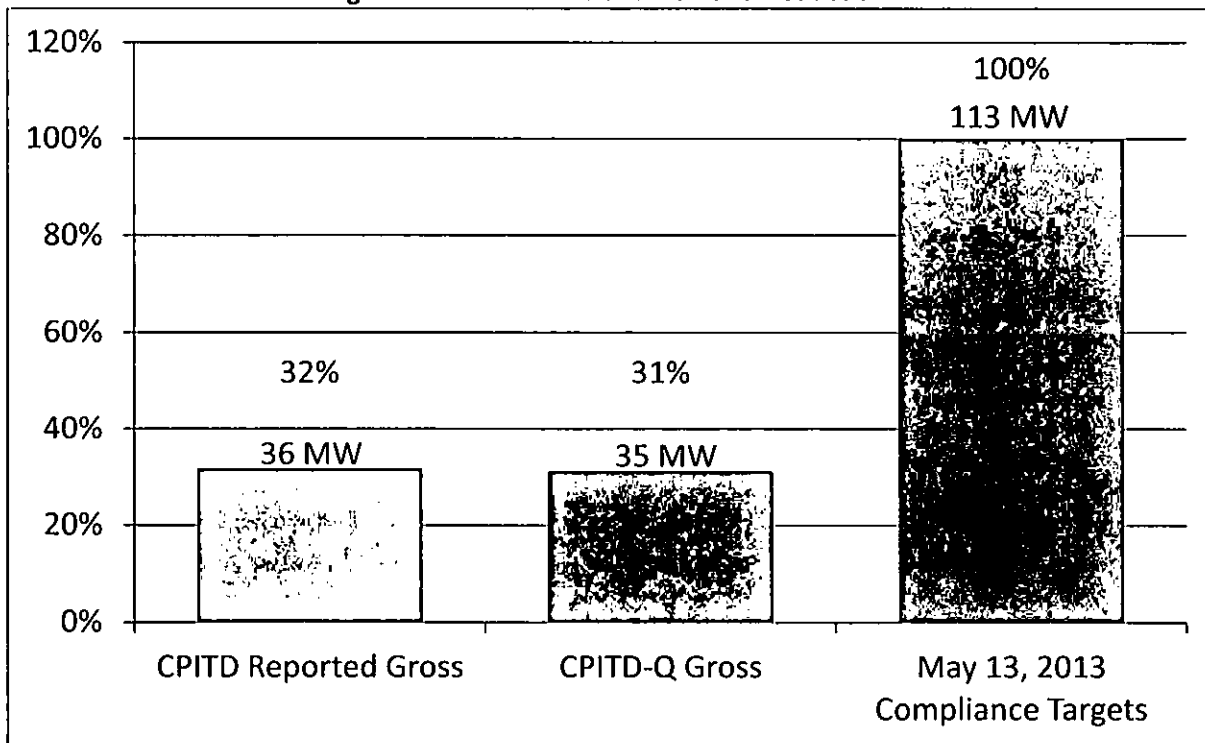

¹ CPITD Reported Gross Savings = CPITD Reported Gross Savings through PY2 + PYTD Reported Gross Savings. All savings reported as CPITD reported gross savings are computed this way.

² CPITD-Q Gross Savings = CPITD Verified Gross Savings through PY2 + PYTD Reported Gross Savings. All savings reported as CPITD-Q gross savings are computed this way. CPITD-Q savings provide the best available estimate of savings achieved through the current quarter. CPITD Verified Gross Savings will be reported in the annual report.

Duquesne has achieved 32 percent of the May 31, 2013 demand reduction compliance target, based on CPITD reported gross demand reduction and 31 percent of the demand reduction compliance target based on CPITD gross demand reduction achieved through Quarter 1 (CPITD-Q), as shown in Figure 1-2.

Figure 1-2. CPITD Portfolio Demand Reduction

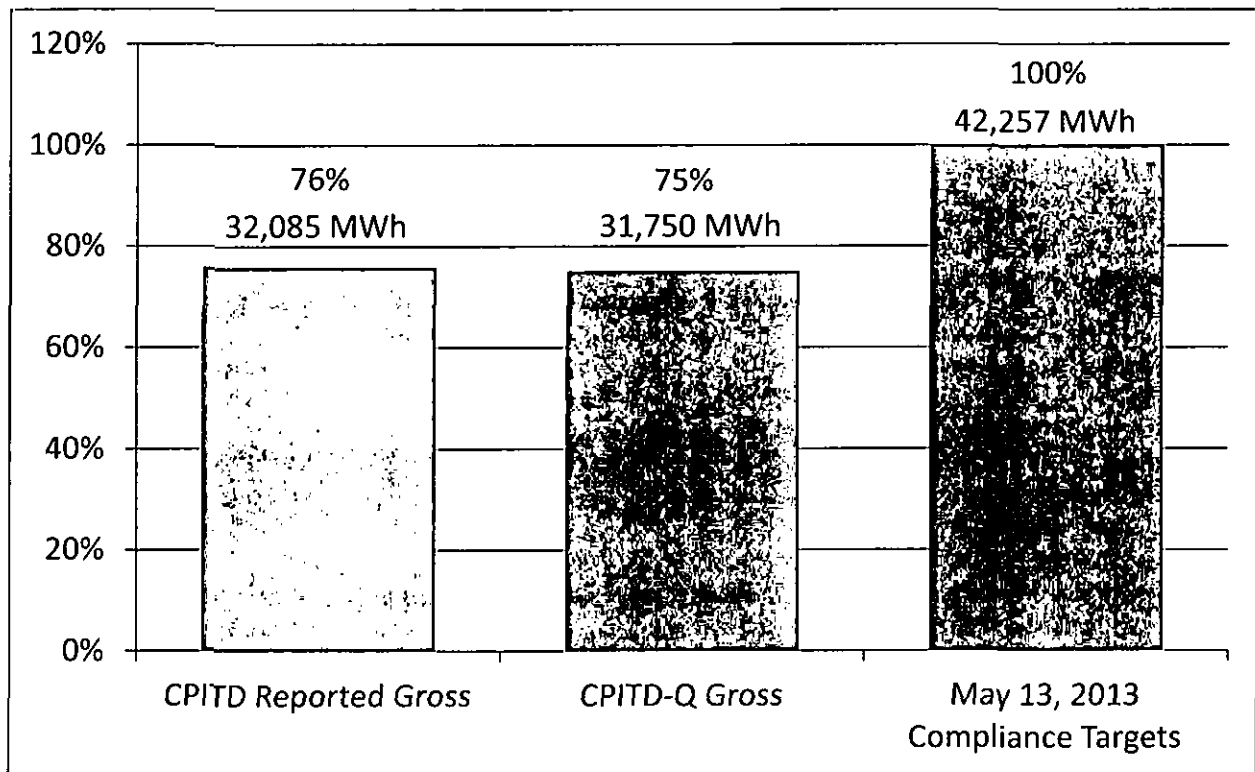

There are 26 measures available to the low-income sector. The measures offered to the low-income sector therefore comprise 38 percent of the total measures offered. As required by Act 129, this exceeds the fraction of total electricity consumption in the Duquesne territory divided by the electric consumption of the utility’s low-income households (7.88 percent).³ The CPITD reported gross energy savings achieved in the low-income sector is 25,192 MWh; this is 7.4 percent of the CPITD total portfolio reported gross energy savings.

³ Act 129 includes a provision requiring electric distribution companies to offer a number of energy efficiency measures to low-income households that are “proportionate to those households’ share of the total energy usage in the service territory.” 66 Pa.C.S. §2806.1(b)(i)(G). The legislation contains no provisions regarding targets for participation, or energy or demand savings.

Duquesne achieved 76 percent of the May 31, 2013, energy reduction compliance target for government, nonprofit and institutional sector, based on CPITD reported gross energy savings, and 75 percent of the target based on CPITD gross energy savings achieved through Quarter 1 (CPITD-Q)⁴, as shown in Figure 1-3.

Figure 1-3. Government, Nonprofit, and Institutional Sectors

1.2 Program Updates and Findings

The energy efficiency programs have not been modified substantively for the first quarter of Program Year Four.

Duquesne Light has an agreement with Comverge, Inc. to implement a direct load control program for central air conditioners and electric water heaters for residential homeowners. There was also an agreement with Comverge to implement a direct load control program targeted at small and mid-sized

⁴ CPITD-Q Gross Savings = CPITD Verified Gross Savings through PY2 + PYTD Reported Gross Savings. All savings reported as CPITD-Q gross savings are computed this way. CPITD-Q savings provide the best available estimate of savings achieved through the current quarter. CPITD Verified Gross Savings will be reported in the annual report.

commercial and industrial facilities for air conditioner cycling. Customers were recruited from all customer classes; however, participants were for the residential air conditioner program only. No customers signed up for water heaters in the residential program or for air conditioners in the small and mid-sized commercial and industrial program. Installations as of the end of May 2012 totaled 1,503 air conditioning units, all in residential dwellings. There were 1,472 participating units for the final curtailment event in August 2012, as a few participants dropped out of the program during the course of the summer.

The Curtailable Load Program was launched in November 2011 under an agreement with EnerNOC, Inc. In addition, ClearChoice served as an agent of Duquesne under its public agency partnership program from March 2012. For the summer of 2012, there were 31 facilities enrolled in the program, including 16 by EnerNOC and 15 by Clear Choice. The peak loads for the enrolled facilities totaled 175 MW for 2011.

No other specific Energy Efficiency and Conservation Plan or program improvements have been implemented in this quarter.

1.3 Evaluation Updates and Findings

Navigant has continued to schedule and conduct telephone and on-site verification and net-to-gross surveys with sampled Program Year Three participants. These results will be used in the final report for Program Year Three, to be submitted by November 15, 2012. Plans are also underway to enable surveying of Watt Choices Curtailable Load program participants, as part of the Statewide Evaluator's (SWE's) effort to estimate the extent to which customer load reductions resulting from EDC Demand Response programs would have occurred anyway due to the existence of PJM load reduction programs.

2 Summary of Energy Impacts by Program

A summary of the reported energy savings by program is presented in Figure 2-1.

Figure 2-1. CPITD Reported Gross Energy Savings by Program

Figure 2-2. CPITD-Q Reported Gross Energy Savings by Program

A summary of energy impacts by program through the PY4Q1 is presented in Table 2-1.

UPS CampusShip: View/Print Label

1. **Ensure there are no other shipping or tracking labels attached to your package.** Select the Print button on the print dialog box that appears. Note: If your browser does not support this function select Print from the File menu to print the label.
2. **Fold the printed sheet containing the label at the line so that the entire shipping label is visible.** Place the label on a single side of the package and cover it completely with clear plastic shipping tape. Do not cover any seams or closures on the package with the label. Place the label in a UPS Shipping Pouch. If you do not have a pouch, affix the folded label using clear plastic shipping tape over the entire label.

3. GETTING YOUR SHIPMENT TO UPS

UPS locations include the UPS Store[®], UPS drop boxes, UPS customer centers, authorized retail outlets and UPS drivers.

Find your closest UPS location at: www.ups.com/dropoff

Take your package to any location of The UPS Store[®], UPS Drop Box, UPS Customer Center, UPS Alliances (Office Depot[®] or Staples[®]) or Authorized Shipping Outlet near you. Items sent via UPS Return Services(SM) (including via Ground) are also accepted at Drop Boxes. To find the location nearest you, please visit the Resources area of CampusShip and select UPS Locations.

Customers with a Daily Pickup

Your driver will pickup your shipment(s) as usual.
