In re: Docket No. A-2012-2282704  
Application of Aqua Pennsylvania, Inc. - Bristol Township Water System

Dear Secretary Chiavetta:

We are counsel to Aqua Pennsylvania, Inc. (Company) in the above matter which concerns its Application to acquire the water system of Bristol Township (Township) in Bucks County and to expand its water service territory to include an additional portion of the Township. The Public Utility Commission (Commission) approved the Application in an Order entered March 29, 2012.

As we explained in our prior letter of June 14, 2013, as the Company was preparing for closing, it became apparent that the service territory boundary between the Township and the neighboring Lower Bucks County Joint Municipal Authority (LBCJMA) is not where the Township originally believed it to be and is, instead, inside the Eastern boundary of the proposed additional service territory presented on the map included with the Company's Application.

To accurately depict the additional portion of the Township that the Company will be serving, we enclosed with our June 14 letter for inclusion at this docket, a revised service territory map. The revised map presents the boundary between the Township and the LBCJMA as it is now known and *reduces* the geographical size of the additional service territory that the Company will be serving in the Township.

Following the submission of the revised map, the Bureau of Technical Utility Services asked that we prepare and submit a revised description of the additional Bristol Township service territory to accompany the revised map. The revised description is enclosed with this letter. Please include it, along with the revised map, at this docket. The revised description replaces the original description submitted by the Company as Appendix B to its Application.

Closing on the Company's acquisition of the Township's water system is scheduled for July 31, 2013 after which the Company will file its notice of closing. Please contact me with any questions and thank you for your attention to this matter.

Very truly yours,

THOMAS, LONG, NIESEN & KENNARD
