#### Philadelphia Gas Works' Objections to the Complainants' Discovery Requests: Interrogatories and Requests for Production of Documents, Set II

Pursuant to 52 Pa. Code §§1.12 and 5.342(d)(1), the Philadelphia Gas Works ("PGW") hereby objects timely to the following Interrogatories and Requests for Production of Documents Set II of the Complainants addressed to PGW, that the Complainants, through their counsel have propounded upon PGW in the above captioned matter by letter dated October 9, 2013, a copy of which is attached hereto as Appendix "A," and is incorporated by reference as if fully set forth.

#### **PGW's Objections**

## OCT 2 1 2013

PA PUBLIC UTILITY COMMISSION SECRETARY'S BUREAU

#### Set II, No. 1

PGW objects to Set II discovery request No. 1, which seeks a listing of all persons providing information responding to Set II and seeks specific information including, "alias names", "home addresses", "home telephone numbers" and "age" of those preparing the answers to Set II. (See Appendix "A")

PGW objects to this discovery request on the grounds that it is overbroad in that it is beyond the scope of these proceedings. It seeks the home address, telephone number age of the persons (PGW employees) that provide information to answer Set II. PGW's responses will comply with the requirements of 52 Pa. Code §5.342(2) and will identify the name and position (PGW title) of the person preparing the answer to the request on the answer to each request. More information about the home address is beyond the scope of these proceedings. Further to the extent request No. 1 seeks to have a list recreated that contains all who prepared answer to Set II, this request is also burdensome. As the Complainants may make a list from the information contained on each of the answers, it is unnecessarily burdensome for PGW to create such a list for the Complainants.

#### Set II, No. 2

PGW objects to this discovery request on the grounds that it is overbroad in that it is beyond the scope of these proceedings. To the extent request No. 2 seeks to have a list recreated that contains all documents contained in the answers to Set II, this request is also burdensome. (See Appendix "A") As the Complainants may make a list from the information contained on each of the answers, it is unnecessarily burdensome for PGW to create such a list for the Complainants.

#### Set II, No. 3

Set II, No. 3 requests that each document "identified and in Respondent's possession..." that are contained in answers to Set II, PGW is requested to produce the

document or make available inspection. PGW objects to this Interrogatory, as it is overbroad, as written. The making available of documents in discovery for inspection is governed by 52 Pa. Code §5.349.

#### <u>Set II, No. 4</u>

Similar to its objection to Set II, No. 1, PGW objects to Set II discovery request No. 4, which seeks a listing of all persons "known to Respondent to have personal knowledge of any facts or issues involved in this law suit,..." and seeks specific information including, "alias names", "home addresses", "home telephone numbers" and "age" of those who have knowledge about these matters. (See Appendix "A")

PGW objects to this discovery request on the grounds that it is overbroad in that it is beyond the scope of these proceedings. It seeks the home address, telephone number age of the persons whether PGW employees or not, that have personal knowledge of these matter. More information is beyond the scope of these proceedings. Further to the extent request No. 4 seeks to have a list recreated that contains all who prepared answer to Set II, and have knowledge about these matters is also burdensome. As the Complainants may make a list from the information contained on each of the answers, it is unnecessarily burdensome for PGW to create such a list for the Complainants.

#### <u>Set II, No. 5</u>

PGW objects to this discovery request on the grounds that it is overbroad and seems to request information that has been previously provided in discovery 11 months ago. Request No. 5 seeks documents "which are utilized to manage the Complainant's Customer Accounts, SA accounts, former and current meters located..." at the Complainant's properties generally and those referred to in the Set II, Exhibits A-1 through – 8. (See Appendix "A") As the Complainants conducted discovery previously, PGW has provided information that is contained in its Billing Credit and Collection System (BCCS) and its other database containing metering information. PGW has provided extensive account (including "SA" information) and meter records to the Complainants. The last of this information was provided in response to discovery

requests under cover letter dated January 31, 2013 to counsel of record Scott H. Debroff, Esq. of Rhoads & Simon LLP. To the extent that the Complainants seek to duplicate this information is unnecessarily burdensome for PGW.

#### <u>Set II, Nos. 6, 7, 8, 9 and 10</u>

PGW objects to this discovery request on the grounds that it is overbroad requests information that is beyond the scope of these proceedings. Request Nos. 6, 7, 8, 9 and 10 seek information concerning the documents and persons involved in training for credit and collection matters at PGW. These requests rise to the level of a management/training audit and not that of the customer dispute issues raised by the Complainant. (See Appendix "A") The issues that have been raised in these matters involve some billing disputes dating back several years, the management of commercial account by a particular unit for that purpose and the legally applicable late payment charges/interest rate. Even the testimony provided the Complainants thus far have been confined to specific identified disputes with bills and the Complainants relationship with a particular unit designed for the Complainants commercial accounts. These requests for training information (materials, content, time and duration) on all debt collection activities are beyond the scope of these proceedings.

#### Set II, No. 11, 12 and 13

PGW objects to Set II discovery request No. 11, which requests description of "...forms of communication or attempted communication with person or other third parties in connection with the collections of accounts..." PGW objects to this discovery request on the grounds that it is overbroad and seems to request information that has been previously provided in discovery months ago and during the course of the hearings of these proceedings. Request Nos. 11, 12 and 13 seek information pertaining to the Complainant's properties generally and those referred to in the Set II, Exhibits A-1 through ~ 8. (See Appendix "A") As the Complainants conducted discovery previously, PGW has provided information that is contained in its Billing Credit and Collection System (BCCS) and its other database containing metering information. PGW has provided extensive account (including "SA" information) and meter records to the

Complainants. The last of this information was provided in response to discovery requests under cover letter dated January 31, 2013 to counsel of record Scott H. Debroff, Esq. of Rhoads & Simon LLP. To the extent that the Complainants seek to duplicate this information is unnecessarily burdensome for PGW.

The issues that have been raised in these matters involve some billing disputes dating back several years, the management of commercial account by a particular unit for that purpose and the legally applicable late payment charges/interest rate. Even the testimony provided the Complainants thus far have been confined to specific identified disputes with bills and the Complainants relationship with a particular unit designed for the Complainants commercial accounts. These requests for training information (materials, content, time and duration) on all debt collection activities are beyond the scope of these proceedings

#### Set II, No. 14, 15 and 16

PGW objects to Set II discovery request Nos. 14, 15 and 16 which seeks, among other things, to identify any or all of the Respondent's notes or telephone calls "...with any person from whom they collection debt, and what steps are taken to preserve these recordings." ..." PGW objects to this discovery request on the grounds that it is overbroad and seems to request information that has been previously provided in discovery months ago and during the course of the hearings of these proceedings. PGW has provided to the Complainants "Contacts" information for each of their accounts in discovery and during the course of testimony. To the extent it can, PGW will provide an explanation of the policies for recording telephone case made to the Customer Service Representatives and the time for which they kept.

The issues that have been raised in these matters involve some billing disputes dating back several years, the management of commercial account by a particular unit for that purpose and the legally applicable late payment charges/interest rate. Even the testimony provided the Complainants thus far have been confined to specific identified disputes with bills and the Complainants relationship with a particular unit designed for the Complainants commercial accounts. Request No. 14, 15 and 16 seek to expand inquiry of these beyond the scope of these proceedings.

#### Set II, No. 17, 18 and 19

PGW objects to Set II discovery request Nos. 17, 18 and 19 which seek a chronological description of "...the process, the origins, the events , and the circumstances under which the Complainants incurred the arrearages, if any allege due by Respondent, sufficient to warrant the imposition of municipal liens..." and other account information.

PGW objects to this discovery request on the grounds that it is overbroad, requests an explanation of a resulting situation with the Complainants' accounts that is beyond the Commission's jurisdiction (municipal liens) and seems to request information that has been previously provided in discovery months ago and during the course of the hearings of these proceedings. Request Nos. 17, 18 and 19 seek information pertaining to the Complainant's properties generally and those referred to in the Set II, Exhibits A-1 through – 8. (See Appendix "A") As the Complainants conducted discovery previously, PGW has provided information that is contained in its Billing Credit and Collection System (BCCS) and its other database containing metering information. PGW has provided extensive statement of account (including "SA") information and meter records to the Complainants. The last of this information was provided in response to discovery requests under cover letter dated January 31, 2013 to counsel of record Scott H. Debroff, Esq. of Rhoads & Simon LLP.

#### <u>Set II, No. 20</u>

PGW objects to Set II discovery request No. 20, which seeks to describe "each instance of a mistake, error or event requiring a correction by Respondent for which Respondent was responsible..." PGW objects to this discovery request on the grounds that it is overbroad and burdensome, as it requests an explanation of every mistake on the Complainants' accounts including the accounts appearing on Set II, Exhibit "A-1" through "A-8". To the extent it has provided testimony in these proceedings, PGW has pointed out where there was an error made. Further, PGW's pre-filed testimony in the remaining consolidated proceedings will include an explanation of the account to include whether PGW found any errors.

#### <u>Set II, No. 21</u>

PGW objects to Set II discovery request No. 21, which seeks to describe in detail "each mathematical method, algebraic mean, algorithm and method of calculation used by Respondent to calculate or confirm the accuracy of Complainant's utility bills..." (See Appendix "A") PGW objects to this discovery request on the grounds that it is overbroad and seems to request information that has been previously provided in discovery 11 months ago. Request No. 21 seeks information that is available to the Complainants' the rates at which the Complainant is charged and the volumes of gas that the Complainants have been billed are readily available on the Complainants' bills and on the documents previously provided in discovery. The Complainants have access to the PGW Tariff as it is contained for public consumption in the PGW website. As the Complainants conducted discovery previously, PGW has provided extensive billing information that is contained in its Billing Credit and Collection System (BCCS). Such information may be derived by the Complainant.

#### Set II, No. 22, 23, 24

PGW objects to Set II discovery request Nos. 22, 23 and 24 which request that PGW describe each communication, or attempted communication, between the Respondents and Complainants, made in connection with the collection, billing and disputes involving the Complainants' Customer Accounts. PGW objects to this discovery request on the grounds that it is overbroad and seems to request information that has been previously provided in discovery months ago and during the course of the hearings of these proceedings. PGW has provided to the Complainants "Contacts" information for each of their accounts in discovery and during the course of testimony.

#### Set II, No. 25

PGW objects to Set II discovery request No. 25, which seeks to identify and describe "... the manner and frequency in which Respondent maintains, repairs, inspects, tests, and ensures accuracy or utility meters.."

PGW objects to this discovery request on the grounds that it is overbroad, requests an explanation of a resulting situation with the Complainants' accounts that is beyond the Commission's jurisdiction (municipal liens) and seems to request information that has been previously provided in discovery months ago and during the course of the hearings of these proceedings. Request Nos. 17, 18 and 19 seek information pertaining to the Complainant's properties generally and those referred to in the Set II, Exhibits A-1 through – 8. (See Appendix "A") As the Complainants conducted discovery previously, PGW has provided information that is contained in its Billing Credit and Collection System (BCCS) and its other database containing metering information. PGW has provided extensive statement of account (including "SA") information and meter records to the Complainants. The last of this information was provided in response to discovery requests under cover letter dated January 31, 2013 to counsel of record Scott H. Debroff, Esq. of Rhoads & Simon LLP.

The issues that have been raised in these matters involve some billing disputes dating back several years, the management of commercial account by a particular unit for that purpose and the legally applicable late payment charges/interest rate. Even the testimony provided the Complainants thus far have been confined to specific identified disputes with bills and the Complainants relationship with a particular unit designed for the Complainants commercial accounts. Request No. 25 seeks to expand inquiry of these beyond the scope of these proceedings by introducing new issues on metering practices.

#### Set II, Nos. 26 and 27

Similar to its objection to Set II, No. 25, PGW objects to Set II discovery request Nos. 26, and 27, which seeks to describe "any writings, utility reports, correspondence, letters, memorandums, emails communications, or any other documents Respondents sent, mailed, faxed to Complainants' or the Commission related to the ..." resolution of or filing of an Informal Complaint "including but not limited to the same as located in the books and records of Respondents Dispute Resolution Group...". PGW objects to this discovery request on the grounds that it is overbroad and seems to request information that has been previously provided in discovery months ago and during the course of the

hearings of these proceedings. PGW has provided to the Complainants "Contacts" information for each of their accounts in discovery and during the course of testimony.

#### Set II, No. 28, 29, 30 and 31

PGW objects to Set II discovery request No. 28, which seeks to describe "Respondent's system of accounts, its policies and practices pertaining to maintaining and ensuring accuracy of customer financial accounts...", No. 29 that seeks a description of PGW's "...automated collection policies and practices." (See Appendix "A") Request Nos. 28, 29, 30 and 31 rise to the level of a management audit and not that of the customer dispute issues raised by the Complainant. The issues that have been raised in these matters involve some billing disputes dating back several years, the management of commercial account by a particular unit for that purpose and the legally applicable late payment charges/interest rate. Even the testimony provided the Complainants thus far have been confined to specific identified disputes with bills and the Complainants relationship with a particular unit designed for the Complainants commercial accounts. These requests for explanations of the billing system of accounting activities are beyond the scope of these proceedings.

#### Set II, No. 32

PGW objects to Set II discovery request No. 32, which seeks a list of all Respondent employees responsible for applying Complainants' payments to the Customer Accounts. As PGW's billing payment and mail receipt is automated, this request for the identity of all PGW employees who are responsible for applying payments is burdensome beyond the scope of these proceedings.

#### Set II, No. 33 and No. 34

PGW objects to Set II discovery request No. 33 and No. 34, which seek to describe "methodology used in by Respondent, to calculate and apply charges for "makeup" bills for or relations to all or any Customer Accounts." PGW objects to this discovery request on the grounds that it is overbroad and seems to request information that has been previously provided in discovery 11 months ago. Request Nos. 33 and

34 seek information that is available to the Complainants'. The rates at which the Complainant is charged and the volumes of gas that the Complainants have been billed are readily available on the Complainants' bills and on the documents previously provided in discovery. The Complainants have access to the PGW Tariff as it is contained for public consumption in the PGW website. As the Complainants conducted discovery previously, PGW has provided extensive billing information that is contained in its Billing Credit and Collection System (BCCS). Such information may be derived by the Complainant.

#### Set II, No. 35, 36 and 37

PGW objects to Set II discovery request Nos. 35 and 36 which seek to describe "methodology used in by Respondent, to calculate and apply interest charges to Complainants' Customer Accounts where liens were filed..." Request Nos. 33 and 34 seek information that is available to the Complainants'. The rates at which the Complainant is charged and the volumes of gas that the Complainants have been billed are readily available on the Complainants' bills and on the documents previously provided in discovery. The Complainants have access to the PGW Tariff as it is contained for public consumption in the PGW website. As the Complainants conducted discovery previously, PGW has provided extensive billing information that is contained in its Billing Credit and Collection System (BCCS) including the assessment of late payment charges. The Complainant has made its own attempt to derive such information and is included on the record of these proceedings. Further, PGW objects to this discovery request on the grounds that it is overbroad, requests an explanation of a resulting situation with the Complainants' accounts that is beyond the Commission's jurisdiction (municipal liens).

#### <u>Set II, No. 38</u>

PGW objects to Set II discovery request No. 38, which seeks to describe "the billing period and gas usage period covered by each lien filed or imposed on any and all of Complainants' Customer Accounts..."

PGW objects to this discovery request on the grounds that it is overbroad and seems to request information that has been previously provided in discovery 11 months ago. Request No. 38 seeks information that is available to the Complainants'. The billing period at which the Complainant is charged and the volumes of gas that the Complainants have been billed are readily available on the Complainants' bills and on the documents previously provided in discovery. As the Complainants conducted discovery previously, PGW has provided extensive billing information that is contained in its Billing Credit and Collection System (BCCS). #### Set II, No. 39

PGW objects to Set II discovery request No. 39, which seeks to produces all documents the Respondent sent to the Commission and to Complainants indicate that any municipal lines on fuel have been marked satisfied.

#### <u>Set II, No. 40</u>

PGW objects to Set II discovery request No. 40, which seeks to identify all persons known to Respondent to have knowledge of any facts or issues involved in the accounting practices with respect to Respondent PGW's system of accounts.

number age of the persons whether PGW employees or not, that have personal knowledge of these matter. More information is beyond the scope of these proceedings. Further to the extent request No. 40 seeks to have a list recreated that contains all who prepared answer to Set II, and have knowledge about these matters is also burdensome. The listing of PGW exhibits has not been finalized.

WHEREFORE, for the reasons stated above, PGW respectfully requests that the Commission issue an order sustaining PGW's objections to the Complainants' discovery Set II.

October 21, 2013

Respectfully submitted.
