RE: License Bond or Other Financial Security

Dear Mr. McCracken:

Pursuant to 66 Pa. C.S. §2809(c), no electric supplier license shall remain in force unless the licensee furnishes a bond or other security approved by the Commission to ensure the financial responsibility of the electric generation supplier and the supply of electricity at retail. The Commission's records indicate that the bond or other approved security provided by Premier Power Solutions, LLC expires on May 1, 2007.

The Commission's regulations at 52 Pa. Code §54.40(d) require "the security level for each licensee will be reviewed annually and modified primarily based upon the licensee's reported annual gross receipts information. The security level will be 10% of the licensee's reported gross receipts." The minimum security level provided may not be less than the initial security level provided when the license was granted. Unless approved by the Commission, the initial security level is \$250,000.

The Commission's regulations at 52 Pa. Code §54.39(b) require a licensee to file an annual report on or before April 30 of each year, for the previous calendar year, in order to comply with 66 Pa. C.S. §2810(c)(6). This report discloses the total amount of gross receipts from the sale of electricity and the total amount of electricity sold during the preceding calendar year. You must use this same information in calculating the appropriate security level necessary to maintain your license.

In order for your company to maintain its status as a licensed electric supplier in the Commonwealth of Pennsylvania, it must provide proof to the Commission that a bond or other approved security has been obtained.

Your response in this matter is requested within fifteen (15) days of the date of this letter. Submit your response to the Commission's Secretary. Additionally, fax a copy of your response to James Shurskis at (717) 787-4750, Bureau of Fixed Utility Services.

Failure to respond to this matter within fifteen (15) days will cause Commission staff to initiate a formal proceeding, that may lead to the following: cancellation of your company's electric supplier license, removal of your information from the Commission's website and notification to all electric distribution companies, in which your company is licensed to do business, of the cancellation of the license.

Please direct any questions to James Shurskis at (717) 787-8763, Bureau of Fixed Utility Services.

Sincerely,

To whom it may concern:

I received the attached letter from the PA PUC regarding the License Bond for our license. I have attached a copy of the bond that was issued on April 26, 2006 for our license. It states that it expires on May 1, 2007. This is the last line on Page 1 of the letter of credit.

However, if you look at the next paragraph on page 2 of the letter of credit, it also states that the letter of credit automatically renews for a one year period unless 90 days notice is given. I talked with my bank today and they inform me that they have not provided notice, so the letter has already automatically renewed for a period of one more year.

I trust that this will satisfy the requirement that I provide a license bond to the PUC in support of our license.

Please let me know if you need any further information with respect to this matter.

Dear Secretary McNulty:

Premier Power Solutions, LLC has been operating in Pennsylvania since May of 2005 as a licensed broker/consultant in the electricity industry.

Our PA PUC license number is A-110170.

At the time of our licensing, we only intended to operate in the service territories of Duquesne Light and Penn Power. At this point in time, we are looking to expand to all of the other utility service territories in PA as well.

By way of this letter we are requesting that you permit us to operate in the remaining utility service territories in PA that we are currently not licensed to operate in. We still only want to provide our services to the same classes of customers. That is, we do not intend to offer our services to residential customers, but we are planning to offer our services to the other customer classes. We still intend to operate as a consultant only and not take title to electricity.

We understand that we must advertise our intent to deliver services in certain newspapers in order to be eligible to provide our consulting services in the remaining utility service territories. We have already advertised in Erie and Pittsburgh to obtain our current licensing and we intend to advertise in Philadelphia, Scranton, Williamsport and Harrisburg to be eligible to provide service to customers in the rest of Pennsylvania.

I have attached a copy of the legal notice that we intend to file for your approval. I will provide proof of publication of the notice to the PA PUC as soon as we receive them back from the various newspapers.

Please advise if this is all that I need to do to be licensed to operate in the remaining utility service territories in PA.

Thank you for your attention to this matter.

Sincerely,

Lee McCracken

DOCUMENT
FOLDER

Dear Secretary McNulty:

Premier Power Solutions, LLC has been operating in Pennsylvania since May of 2005 as a licensed broker/consultant in the electricity industry.

Our PA PUC license number is A-110170.

At the time of our licensing, we only intended to operate in the service territories of Duquesne Light and Penn Power. At this point in time, we are looking to expand to all of the other utility service territories in PA as well.

By way of this letter we are requesting that you permit us to operate in the remaining utility service territories in PA that we are currently not licensed to operate in. We still only want to provide our services to the same classes of customers. That is, we do not intend to offer our services to residential customers, but we are planning to offer our services to the other customer classes. We still intend to operate as a consultant only and not take title to electricity.

We understand that we must advertise our intent to deliver services in certain newspapers in order to be eligible to provide our consulting services in the remaining utility service territories. We have already advertised in Erie and Pittsburgh to obtain our current licensing and have recently advertised in Philadelphia, Scranton, Williamsport and Harrisburg.

I have attached a copy of the proof of publications for the newspapers that we were required to publish in to obtain licensing for the remainder of PA.
