PROTEST OF CROSSETT, INC.
DOCKET NO. A-00033216

DOCKETED
MAR 02 1989

COMES NOW, CROSSETT, INC., and protests the above Application for the following reasons:

(1) The approval of the title Application, to the extent it includes the transportation of commodities in bulk and/or petroleum and petroleum products to, from or between points in Pennsylvania, is not necessary for the accommodation, convenience, service or safety of the public to the extent it competes and conflicts with the Certificates of Crossett, Inc. which are hereinafter described.

(2) The facilities of this Protestant and other authorized public for the transportation of commodities in bulk and/or petroleum and petroleum products to, from and between points in Pennsylvania.

(3) The approval of this Application, to the extent it includes the transportation of commodities in bulk and/or petroleum and petroleum products to, from and between points in Pennsylvania will be prejudicial to your Protestant since it will authorize additional competition with the potential loss of revenue by the Protestant and injury to the public.

RE: Diesel Fuel Spill Into Tributary of
Little Mahoning Creek
Crossett, Incorporated
East Mahoning Township
Indiana County

Dear Mr. Holder:

On November 10, 1987, personnel from this Department investigated a diesel fuel spill into a tributary of Pickering Run, a tributary to Little Mahoning Creek in East Mahoning Township, Indiana County. The spill was caused by an accident involving a Crossett, Inc. tank trailer that was being hauled by a Lawson Trucking Company trailer. The accident occurred on Route 119 approximately three miles north of Marion Center, and resulted in a spill of approximately 7,000 gallons of diesel fuel.

Upon discovery of the spill, you initiated clean-up of the spilled fuel and mitigation of the environmental impact on the aforementioned streams. Much of the spilled oil was found in all of these streams, and the total stream length that was significantly affected was approximately 3.5 miles.

This discharge of fuel into these streams is a violation of Sections 301, 307, 401 and 611 of the Clean Streams Law of Pennsylvania, the Act of June 22, 1937, P.L. 1987, as amended, 35 P.S. §691.1 et seq. It is also a violation of the Fish and Boat Code, the Act of October 16, 1980, P.L. 996, No. 175, 30 Pa. C.S., Section 101 et seq.

This Department is responsible for enforcement of the Clean Streams Law, including the recovery of civil penalties up to ten thousand dollars (\$10,000) and summary and misdemeanor criminal penalties up to ten thousand dollars (\$10,000) and twenty-five thousand dollars (\$25,000), respectively, for each separate violation. The Pennsylvania Fish Commission is responsible for enforcement of the Fish and Boat Code, including the recovery of criminal penalties of up to two thousand five hundred dollars (\$2,500) for each separate violation.

This Department is authorized to negotiate a settlement of behalf of the Pennsylvania Fish Commission for this incident. To avoid litigation, the Department is willing to resolve this matter by accepting a civil penalty settlement in lieu of the civil penalty action for the November 10, 1987 discharge. We are proposing a settlement on the following basis:

Mr. Robert W. Holder

- 2 -

March 1, 1988

1. By March 31, 1988, Crossett, Inc. submit to the Department a complete report on the Crossett, Inc. pollution incident of November 10, 1987.
2. By March 31, 1988, Crossett, Inc. will pay to the Department ONE THOUSAND FIVE HUNDRED DOLLARS (\$1,500.00) by means of a check made payable to the "Commonwealth of Pennsylvania, Clean Water Fund."
3. By March 31, 1988, Crossett, Inc. will pay to the Pennsylvania Fish Commission ONE THOUSAND DOLLARS (\$1,000.00) by means of a check made payable to the "Pennsylvania Fish Commission." This check should be sent directly to the Pennsylvania Fish Commission, c/o Amil Svetahor, Waterways Conservation Officer, P.O. Box 132, Ford City, Pa. 16226.
4. Upon receipt of the spill report and the above payments, the Department agrees to waive any further civil penalty action against Crossett, Inc. for the November 10, 1987 pollution incident provided, however, that nothing contained herein shall be construed to relieve Crossett, Inc. from any liability or environmental damage which may have resulted from this activity.

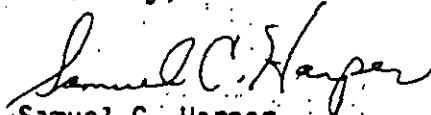

If our settlement proposal is acceptable, please sign and date all three (3) copies of this letter and return them to me at the letterhead address by March 31, 1988, along with the spill report and the Clean Water Fund payment. The Department requests the signatures of two corporate officials and the corporate seal. You will receive a fully executed copy of this letter for your files.

If our settlement proposal is not acceptable, please notify me in writing by March 31, 1988. After March 31, 1988, this settlement letter will become void and we will pursue other enforcement alternatives.

This letter shall only constitute an offer of settlement until March 31, 1988 and shall not be construed for any other purpose.

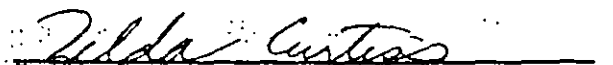

If you have any questions, please contact me at (412) 645-7100.

Sincerely,

Samuel C. Harper

RE: VSL/FAC: Tank Truck
Party: Crossett, Inc.
Penalty Determination: \$100.00

Dear Mr. Brown:

I have reviewed the case file together with the matter presented in your letter of 21 September 1988. I find there was a violation of 33 USC 1321(b)(3) in that a harmful quantity of oil was discharged from your tank truck on or about 10 November 1987. Section 1321(b)(6) requires assessment of a penalty for every violation. In consideration of all the circumstances of this violation, a civil penalty of \$100.00 is assessed against Crossett, Inc.

As required by 33 USC 1321(b)(6), I have considered the evidence available to me in determining the appropriateness of this penalty to the size of the business of the owner or operator charged, any effect on the owner or operator's ability to continue in business, and the gravity of the violation. The most significant factors affecting the gravity of this violation are the amount and cause of the discharge, and the effort made to mitigate its effects.

I accept your arguments concerning your financial condition and the good faith efforts used in minimizing the effects of this spill. I have mitigated the penalty to what I consider reasonable for the circumstances.

If you do not submit a timely appeal, my decision becomes the final agency action on this case, and your payment of this penalty is due in full 30 days after the date of this letter.

To pay this penalty, make a check or money order payable to the "U.S. Coast Guard." To ensure that the payment is credited to the proper account, include a copy of this letter with the payment. Do not mail the payment to me. Mail the check or money order to the U.S. Coast Guard Collection Clerk:

Commander MLCPAC (fac-2)
Building 54 A
Coast Guard Island
Alameda, CA 94501-5100

Interest at an annual rate of 6% will accrue from the date of this letter, but will be waived if payment is received within 30 days. If payment is not received within 30 days, an administrative charge of \$12.00 per month will be added to the previously described interest rate. In addition, if payment is not received within 90 days, a late payment penalty of 6% will be applied to the sum of the penalty, accrued interest, and administrative charges. All these additional costs are mandated by the Debt Collection Act of 1982.

You have the right to an administrative appeal to the Commandant, U.S. Coast Guard. Any appeal must be submitted to me in writing within thirty days of your receipt of this letter, and failure to submit an appeal within this period will bar its consideration. The only issues which will be considered on appeal are jurisdictional questions and those issues specified in the appeal which were properly raised before me. Failure to appeal on the basis of a particular issue will constitute a waiver of that issue in any future proceedings in this case.

Sincerely,

G. W. DUNTON
Lieutenant Commander, U.S. Coast Guard
Hearing Officer
