SECRETARY'S BUREAU

RE: ELECTRICITY GENERATION SUPPLIER'S LICENSE APPLICATION

Dear Ms. Abbott

On July 24, 2007, Liberty Power Delaware LLC ("Applicant") filed an application with the Commission for a license to provide electric generation services in the Commonwealth of Pennsylvania. The application was incomplete. Processing of the application cannot be completed until the following information is provided:

1. Affidavit attesting to publication in the appropriate newspapers and Proofs of Publication.
2. CONTACT PERSON-PEMA (Item 2.b.) – Provide the name, title, address, telephone number and FAX number of the person with whom contact should be made by PEMA.
3. REGISTERED AGENT (Item 3.b.) – Provide the complete address and FAX number of the Applicant's Registered Agent in the Commonwealth.
4. CONTACTS FOR CONSUMER SERVICE, etc. (Item 17.a.) – Provide the name, title, address, telephone number and FAX number of the person and an alternate person responsible for addressing customer complaints.
5. DISCLOSURE STATEMENT (Item 17.c.) – Provide a copy of the Applicant's disclosure statement.
6. FINANCIAL FITNESS (Item 19.a.) – Provide sufficient information to demonstrate financial fitness commensurate with the service proposed to be provided.
7. FINANCIAL FITNESS (Item 19.b.) – Provide professional resumes for the Applicant's chief officers. Provide the name, title, address, telephone number and FAX number of Applicant's custodian for its accounting records.

B 2050
L 1681

8. TECHNICAL FITNESS (Item 20) – Provide sufficient information to demonstrate technical fitness commensurate with the service proposed to be provided.

Your answers should be verified per 52 Pa. Code § 1.36. Please forward the information to the Secretary of the Commission. In addition, to expedite completion of the application, please fax the information to Bob Keyton at (717) 787-4750.

Please direct any questions to Bob Keyton, Bureau of Fixed Utility Services, at (717) 783-0350.

Sincerely,

Paul Diskin, Manager

Led the development and analysis of hedging strategies for retail deals and other portfolio requirements. Monitored the performance of the market manager books and analyzed violations to risk limits established by the Risk Control department. Provided leadership to the team to manage the daily requirements to serve load

Reliant Energy, Manager, Pricing & Structuring, 2002 - 2004

- Responsible for all pricing activities for industrial customers in Texas and all retail deals in the Northeast.
- Responsible for the development of forward curves of non-liquid commodities.
- Developed additional technical expertise or secured external resources in the areas of congestion and ancillary services

Enron Energy Services, Manager, Retail Structuring, 2001

- Led the product development and retail structuring functions for the New England and PJM markets, for both small and large commercial customers

Enron South America, Trader, Trading & Marketing, 2000

- Led the development and implementation of trading operations in Central America and Colombia. Executed hourly trades between generators and loads. Monitored the real-time load versus day-ahead positions and bought or sold power based on the real time positions and evaluation of market conditions

Constellation Power, Manager, Origination, 1999-2000

Public Service Energy Resources, Manager, Structuring and Fundamentals, 1997 - 1998

- Worked as a member of the Market Fundamentals team in information collection, analysis and distribution of key market data
- Supported various members of energy trading and portfolio optimization teams to include coal and emissions trading and portfolio management, coal group, numerous power trading teams, power generation and gas trading
- Performed innovative statistical analysis providing informational advantages to core groups, ensured company's interests were protected from changing market landscape
- Initiated new fundamentals ideas on trade floor to leverage public and private market information and communicate these ideas among various groups

Coastal Power, Manager, Business Development and Origination, 1996 - 1997

World Bank, Consultant, 1994 - 1996

Education

- 5/85 BS, Electrical Engineering, Instituto Tecnológico de Santo Domingo
- 5/90 Masters, Electrical Engineering, University of Pennsylvania
- 5/94 Masters, Energy Management, University of Pennsylvania

Liberty Power Delaware Small Customer Disclosure Statement

This is an agreement for electric generation service, between Liberty Power Delaware LLC and

customer's name

full address

full address

Background

- Liberty Power Delaware LLC ("Liberty Power") is licensed by the Pennsylvania Public Utility Commission to offer and supply electric generation services in Pennsylvania. Our PUC license number is A-110XXX.
- We set the generation prices and charges that you pay. The Public Utility Commission regulates distribution prices and services. The Federal Energy Regulatory Commission regulates transmission prices and services.
- If you ask us, we can bill you directly for our service.
- Right of Rescission - You may cancel this agreement at any time before midnight of the third business day after receiving this disclosure.

Definitions

- Generation Charge - Charge for production of electricity.
- Transmission Charge - Charge for moving high voltage electricity from a generation facility to the distribution lines of an electric distribution company.

Terms of Service

Basic Service Prices

You will pay RATE per kWh for electric generation service.

Length of Agreement

You will buy your electricity generation service for the above street address from Liberty Power Delaware LLC beginning date through date of expiration, if any.

Penalties, Fees and Exceptions

Late Payment Fees: Payables are due and payable by the stated due date on your invoice and will be subject to a finance charge for any late payment (at the lesser of 1.8% per month or the maximum rate permitted by applicable law) and collection fees, including reasonable attorneys' fees and court costs. A fee of \$30 per transaction will be assessed due to insufficient funds for any method of payment.

Cancellation Provisions:

If you cancel your Agreement with us after the rescission period but before the end of the initial term, you may be subject to payment of an Early Termination Payment described below.

Liberty Power will calculate a "Termination Value" if you decide to cancel this agreement before the end of the initial term, and if that Termination Value is calculated to be a positive number, you shall be obligated to make an Early Termination Payment to Liberty Power in an amount equal to the absolute value of the Termination Value.

The Termination Value is the "Contract Value" of your contract minus the "Market Value" of your contract.

Termination Value = Contract Value - Market Value

Where:

Contract Value = Contract Price x Contract Quantity, and
Market Value = Market Price x Contract Quantity.

The Contract Quantity shall be defined as the total usage for the balance of the term of this Agreement, based on the historical monthly consumptions for the accounts constituting this Agreement. The Market Price shall be defined as a load-weighted average of energy forward prices in the congestion zones where the accounts are located and to include ancillaries, transmission losses and other pass through components. The term for the Market Price will be for remaining term of the contract. Liberty Power agrees to act in a commercially reasonable manner to establish the Market Price. This early termination fee shall be waived if Customer provides satisfactory documentation demonstrating that the Customer has moved to another premise.

You may also be subject to paying the Early Termination Payment as calculated above if you are found to be in default of this Agreement. An "Event of Default" shall mean for the Customer, (i) the failure to make, when due, any payment required under this Agreement or (ii) the failure to take electric supply when delivered under terms of this Agreement if such failure is not cured within ten (10) Business Days after giving written notice to Liberty Power. Liberty Power may discontinue service to the Customer for failure to pay invoices due after fifteen (15) days written notice.

For reason other than failure to pay invoices or an event of default, Liberty Power may cancel this Agreement upon thirty (30) days written notice to the customer, with no penalty to the customer.

Renewal Provision

The fixed rate associated with the term of the Agreement will automatically convert to a monthly variable rate after completion of the initial term unless you renew your contract under a new fixed rate Agreement at least fifteen (15) days prior to the end of the existing fixed rate term, or inform us if you wish to leave Liberty Power at the end of the initial term at least fifteen (15) days prior to the end of the existing fixed rate term. Liberty Power will continue to serve you on a variable rate until receiving notice that you wish to convert to a new fixed-rate term Agreement or end your Agreement with us.

Agreement Expiration/Change in Terms

If you have a fixed term agreement with us and it is approaching the expiration date or if we propose to change our terms of service, we will send you written notice in each of our last three bills or in separate mailings before either the expiration date or the effective date of the changes. We will explain your options in these three advance notices.

Dispute Procedures

Contact us with any questions concerning our terms of service. You may call the PUC if you are not satisfied after discussing your terms with us.

LIBERTY POWER CORP, Houston, TX **2001-Present**
Chairman and Chief Executive Officer

- Co-founder of energy services provider targeting business and government customers in deregulated states.
- Devise strategy to gain market share in geographic regions traditionally served by utility companies and recently opened for competition.
- Building team to execute on strategy: from customer acquisition, to account switching, to building back-office billing and customer service support systems.
- Lead team in building a successful business within a fast-paced, dynamic power market.

ENRON, Houston, TX **1999-2001**
Co-Head, North America Power Site Optimization, 2001

- Co-founded a development group targeting brown field projects to increase the efficiency and output of existing generation facilities in supply-constrained regions of the United States.
- Led multi-disciplinary team from finance, legal, engineering and power marketing to formulate customized site optimization and financing structures. Presented site optimization value proposition to customers.
- Originated and developed projects with industrial customers, QF facilities and municipalities. Negotiate pricing and structure with customers and power traders.

Manager, Energy Service Sales, 1999-2001

- Marketed Enron's power commodity and hedging products to medium and large industrial customers. Offered strategies to hedge customer commodity price and volumetric exposures.
- Presented customer \$10 million offer to mitigate deregulation risk in existing commodity positions nationwide. Executed the unwinding of a \$3 million Demand Side Management and commodity position with a large industrial customer.
- Interfaced with structuring, risk management, legal and finance groups to get internal approvals.

SALOMON SMITH BARNEY, New York, NY **1998**
Summer Associate

- Provided stock recommendations based on multiples comparisons and DCF analysis.

NORTEL NETWORKS, Miami, FL **1993-1997**
Finance Director, 1996-1997

- Managed team in financial modeling of project finance and structured finance deals.
- Negotiated sales financing terms with network customers and advised on take-out financing sources.
- Established credit review process to minimize value at risk with distributors of network equipment.
- Reviewed and approved sales proposals to determine if they met profitability and NPV targets.

Senior Analyst, 1993-1995

- Formulated yearly budgets and quarterly forecasts for a \$1 billion division.
- Prepared project profitability and cash flow forecasts; analyzed actual results against forecasts.
- Coached junior analysts on project to determine cost of capital for customers in Latin America.

BANK OF AMERICA, Miami, FL **1991-1993**
Analyst

- Analyzed clients' financial statements to determine their credit quality and repayment ability.
- Structured bridge loans and commercial lines of credit to meet client needs.

Education:

NEW YORK UNIVERSITY, Leonard N. Stern School of Business, New York, NY
Master of Business Administration, Emphasis in Finance and Marketing, 1999

- Vice President, Sales and Trading Association, 1998-1999
- Led team to win annual Stern Marketing Strategy Competition, 1998
- Co-Founder, Latin American Business Association, 1997

PALM BEACH ATLANTIC UNIVERSITY, West Palm Beach, FL
Bachelor of Science, Accounting, 1991

- Magna Cum Laude; Passed CPA exam
- Dean's list six semesters.

- Establishes relations with banks and other financial institutions.

TELEFONICA, S.A., Miami, FL

1999-2007

(Telefónica, S.A. is a world leader in the telecommunication sector, with a market capitalization of almost 100 billion US\$. With presence in Europe, Africa and Latin America, it is the leading carrier in the Spanish-Portuguese speaking market with over 191 million customers.)

Chief Financial Officer, Telefónica USA, Inc. (2004-2007)

Oversee the Finance, Accounting and Administration area of wholly owned subsidiaries of Telefónica, with three operations in Puerto Rico and the USA with combined revenues of \$100 million. Directed implementation and measurement of key performance indicators for each business unit, including target EBITDA and ROI by client project, and market sector performance indicators with an emphasis on maximizing profit and shareholders' return.

- Improved EBITDA from a negative \$6 million in 2004 to a positive \$500,000 in 2005 while supporting a compound annual growth rate of revenues of 8.5% through 2006.
- Spearheaded implementation of an integrated, web-based application to manage financial and accounting reporting, providing real-time P&L data for each business unit, facilitating data-driven decision-making, reducing headcount and creating a more automated and efficient accounting system.
- Project-managed the consolidation of three operations into one, while identifying and implementing cost control initiatives totaling \$3.7 million and reducing headcount by 7%.

Chief Executive Officer, Telefónica Larga Distancia de PR, Inc. (2000-2004)

Provided strategic direction to all areas of the business including Sales of Voice and Data Services, Carrier Relations, Marketing, Network Operations, Management Information Systems, Human Resources, Legal, Finance and Administration. Led an executive team of seven.

- Successfully turned around 8-year losses of \$24 million to profit of \$3 million within one year.
- Restructured all areas of the business, streamlining business processes and closing out underperforming areas while achieving a headcount reduction of 15%.

Director of Corporate Unit, TLD & NewComm Wireless Services, Inc. dba Movistar (1999-2000)

Led the Finance and Management Control, Administration, Human Resources, Carrier Relations, Management Information Systems areas, for TLD and Movistar, as well as the Logistic and Line Activation areas of Movistar, with combined revenues in excess of \$73 million. Led a team of 36.

- Analyzed business plans on proposed new business opportunities, forecasting ROI and recommending investments in various initiatives including rollout of a data transport network for a new line of business with revenue increase of 9% within 12 months.
- Supported capital fundraising for Movistar, achieving investment capital of \$200 million.

Director, Finance & Administration, NewComm Wireless Services, Inc. dba Movistar (1999)

Led the fast-track launch of a joint venture between a local entrepreneurial partnership and TLD in the areas of Finance, Accounting, Human Resources, Procurement, Contracting, Line Activation, and Administration. Oversaw contracting of essential business services.

- Devised and implemented procedures and internal controls for a startup operation in accordance with USGAAP and sound business practices. Created and implemented inventory logistics processes which enabled the distribution of inventories to direct and indirect sales channels throughout the whole island.
- Developed HR practices and led development of organizational structure, job titles, and compensation plans. Recruited key personnel with growth of division to 300.

AT & T OF PUERTO, INC., San Juan, PR

1993-1999

Chief Financial Officer (1998-1999)

Directed all areas related to the financial aspects of the two subsidiaries of AT&T in Puerto Rico and the US Virgin Islands including all controllership functions, treasury and finance, budgeting, forecasting and managerial reporting.

- Led the restructuring of the entire finance organization, reducing staff from 32 employees to 16, reevaluating all processes and procedures to ensure that critical and value added functions received adequate attention. Participated in leading the restructuring of all business areas of AT&T of Puerto Rico, Inc.

Comptroller (1994-1998)

Directed the areas of General Accounting, Accounts Payable, Payroll, Taxes and Cash Management operations and process improvement implementation. Prepared and analyzed financial statements and generated forecasting reports and actively participated in budgeting. Directed a staff of 11.

- Managed implementation of Oracle Financial platform. Identified and implemented process improvements. Reduced closing cycle from 7 to 3 days and improved accuracy to 100%.

Treasury Manager (1993-1994)

- Reduced IRS penalties from delayed payments and errors in Social Security, Disability and W-2 filings.

DELOITTE, LLP, San Juan, PR

1982-1993

Senior Audit Manager (1990-1993)

Audit Manager (1987-1990)

Senior Consultant, Emerging Business Service Department (1985-1987)

Staff Accountant (1982-1985)

Planned, supervised, and managed domestic and multinational audit engagements including the preparation and analysis of financial statements and discussion of audit reports.

Brent Lincoln Glines

Professional Experience:

10/07-Curren t Energy Supply Director

- Maintains Load Forecasting database and ensures that customer's metered data is consistent with CIS system.
- Forecasts load requirements for NYISO, PJM and ERCOT on a daily basis.
- Manages the testing of new utility markets in the load forecasting system.
- Submits daily schedules of day-ahead purchases for NYISO, PJM and ERCOT to scheduling service provider.
- Coordinates between supplier counterparties, ISOs and scheduling service providers the daily scheduling of bilateral energy and ancillary service transactions.
- Manages purchases of products from Independent System Operators (ISO), including the purchase of ancillary services, capacity and transmission.
- Manages relationship with scheduling service provider and negotiates new terms.
- Maintains relationships with ISOs and represent Liberty Power in ISO market committees.
- Interfaces with Structuring Group in the development and updates of forward curves and pricing models.
- *Assists Trading and Origination in negotiating structured transactions with wholesale counterparties and portfolio management.*
- Generates backcasts of retail load in NYISO, PJM and ERCOT on a daily basis.
- Reconciles initial invoices provided by ISOs.
- Generates final retail load and determines variance against ISOs final settlement.
- Generates daily settlement reports.
- Files disputes with ISOs.

05/05 –09/07 Senior Risk Analyst for Calpine Merchant Services Company

- Managed the development of customized reports for senior management on Calpine's overall risk position
- *Currently establishing Calpine's environmental attribute position within Nucleus*
- Managed the term portfolio reporting for West, Central and East Term Books. This included evaluating and supervising the modeling of structured deals. These deals include swaps, fixed price options, spread options, transportation, and storage. Reported the profitability, the daily positions and company exposure of the book.
- Managed and reported the Canada Gas as it relates to the West Term Books.
- *Managing the daily entry of term curves from trader spread sheets to Nucleus. This includes daily NYMEX and NYMEX option volatilities, 90 day correlations, interest rates and Canada exchange rates. Responsible for checking the accuracy of pricing curves before they are pushed into Nucleus.*
- In all of these aspects of reporting profitability and company exposure, I have utilized Excel, Visual Basic, Curve Manager, Nucleus and Calpine personnel.

06/04 – 05/05 Pricing and Analytics Manager for Pepco Energy Services

- Developed Excel pricing models for new market territories, such as, NYISO, and other PJM expanding areas such as Allegheny, and Duquesne.
- The structured products include fixed price, straight LMP, LMP adder, and heat rate contracts (gas commodity to power commodity conversion).
- Analyzed the accuracy of pricing variables within current models such as congestion, transmission, ancillaries services, load following and full requirements risk for PJM and NYISO.
- Responsible for notifying the Front Office about the new short positions and their impacts on the energy portfolio.

Personnel Reporting – 2 Pricing Analyst

05/03 – 05/04 Energy Consultant - Glines Energy Company

- A registered aggregator for Texas Electric Choice.
- *Provided consulting in risk management processes, retail pricing, and energy portfolio management for retail electric providers, commercial and industrial customers.*
- Estimated the customer's price to beat

- Consulted with Retail electric provider on managing gas swaps and derivatives.
- Determined if electric customers (ERCOT) can benefit by switching to a different REP.
- Assisted in the purchase of power for the retail electric business in ERCOT. These responsibilities included hedging power sells, hedging full requirement exposure from firm customers, and developing counter party relationships.
- Commodities purchased include: gas NYMEX look-likes, gas call options, gas swaps, heat rate power contracts and physical fixed price power purchases for hedging forecasted demand volume.
- Developed a Retail Pricing model for Residential, Commercial and Industrial Power Customers.

10/97 – 03/03

Risk Manager for SCANA Services covering the subsidiaries of SEMI, SCPC and PSNC

Gas Portfolio Management

- Developed and implemented a risk management plan for SEMI's deregulated retail business in Georgia and presented the plan to senior staff. The risks addressed in the plan are: price risk, volumetric risk (weather derivatives, full requirements premium), basis risk, index premium risk and storage risk
- Developed a hedging plan for SEMI's fix price commercial and industrial customers (plan covers partial and full contracts) in North Carolina, South Carolina, Georgia, Michigan and California offices. Participants have the choice of: NYMEX price triggers, physical basis swaps, fixed price, price caps, collars and index gas.
- Managed the hedge program for regulated SCPC and PSNC
- Developed a hedging strategy for restructuring storage into a synthetic call option, without impacting operation integrity.
- Developed and executed a risk management plan for California Transportation between the Malin/PG&E City Gate (Redwood) and SOCAL/PG&E City Gate (Baja).
- Managed a portfolio of fixed price, basis, index, transportation risk books
- Worked with internal auditors in the evaluation of energy transactions and position risk in the commodities markets, for both financial and physical.
- Managed NYMEX financial gas contracts for three subsidiaries (approximately 2,000 contracts)

Structured Transactions

- Structured and execute no-cost collars, caps and floors to fit customer risk management needs.
- Defined structured pricing for SEMI's deregulated markets (pricing includes commodity, basis, index premium/discount, fuel, transportation, full requirements premium, option premium and margin).
- Restructured futures contracts into call options.
- Developed pricing models for SEMI's deregulated commercial and industrial customer markets.
- Implemented residential fixed and cap pricing structures.
- Structured the purchase of competitive marketer's industrial customer portfolios

Personnel Reporting – 2 Risk Analyst and 1 Clerk

7/95 – 10/97

Retail Pricing Specialist for Emerging Electricity Market, South Carolina Electric & Gas Company

Research pricing methodology

- Customer types were segmented into full requirement and base load customers.
- Built a wholesale forward price curve from the current market, market zones and positions.
- Estimated a risk factor for full requirements using a stated rate class load shape and commodity prices
- Valued a price cap for a full requirement customers (can be determined by calculating an option and adding a volumetric risk factor to the options cost).

Personnel Reporting – 1 Analyst

1988 – 7/95

Senior Research Analyst for Demand-Side Management and Senior Market Research Analyst, South Carolina Electric & Gas Company

Process Manager - for customer requirements research used in the corporate CFCIP (Customer Focus Continuous Improvement Process). This research concentrates on operational improvements for electrical transmission/distribution systems and related customer services.

Managed Customer Research Projects

- Research projects were designed to determine customer satisfaction for Industrial, commercial and residential.
- New product development research

Personnel Reporting – 2 Analyst and 15 full time interviewers

Researched (Electric) Demand-Side Management Programs and Customer Research

- Collected and analyzed customer data bases
- Analyzed program impacts on demand load and customer research using (SAS)
- Developed (SAS) forecasting models to predict customer participation.
- Developed models to predict program load impacts for business analysis.

Education:

12/87 Masters of Arts degree in applied Economics with a concentration in Finance from the University of North Carolina at Greensboro.

The degree focused on the application of statistical modeling in the solution of business and economic problems. Emphasis in applied econometric and forecast modeling techniques. Thesis research: "OPEC – Proof of an Anti-Competitive Organization" The research included theoretical and empirical event study analysis. Statistically tested the event effects.

6/85 Bachelor of Arts degree in Economics with a minor in Business from the University of North Carolina at Charlotte.

DIRECTOR / MANAGER – CLIENT SUPPORT OPERATIONS

**Call Center Operations / Performance Management / Team Building / Organization Restructuring / CRM
Business Process Standardization / Strategic Planning / Partnerships / Reengineering**

Innovative management leader with expertise in directing policies and procedures in large domestic call centers for AT&T Wireless. Adept in building business support and collaborative relationships. Consensus builder and change agent highly skilled in leading high-performance teams to achieve or exceed targeted objectives. Proven history of leading operations and quality initiatives to drive increased profitability while controlling costs. Accomplished leader in driving business in highly competitive world of wireless sales and service.

- ◆ Drove \$119M in cost reductions through improved efficiencies.
- ◆ Led 88 efficiency improvement projects, achieving \$43M in cost savings.
- ◆ Improved AT&T Wireless operational efficiencies nationwide, saving \$30M annually.

Key Skills: Establishing strategic vision and direction maximizing client relationships. Implementing cost controls. Demonstrating entrepreneurial leadership.

BBA, Business Management, Northwood University, 1996. *Cum Laude*

PROFESSIONAL ACHIEVEMENTS

Drove 110% reduction in repeat errors and 54% in process errors resulting in \$119M savings for AT&T through improved efficiencies. Company experienced high customer base calling and resolution time creating immediate attention to internal processes due to launch and implemented of new customer relationship system. Led activities with IT department to identify, communicate and resolve errors. Trained team to support customer service with future system deployment, sustainment issue tracking, resolution, and process documentation.

Led 88 efficiency improvement projects, achieving \$43M in cost savings. Call center experienced heavy level of inbound customer calls, all processes required restructure. Led team of 34 project managers on a variety of efforts to integrate new policies and procedures, driven by customer service requirements. Standardized intranet site used by call center representatives. Uniformed credits and adjustments process. Introduced reason / resolution tracking tool for customer calls, and recurring electronic fund transfers. Introduced automated dropped call adjustment process.

Improved AT&T Wireless operational efficiencies nationwide, saving \$30M annually. Company suffered from redundancy in local efficiency improvement efforts. Introduced new strategic plan to AT&T Wireless customer service department directors, and gained approval to implement the initiative nationwide, improving and standardizing operational processes. Developed national training program, and achieved nationally consistent experience for all customers.

CAREER SUMMARY

VP of Operations, Liberty Power, January 2006 - Current. Manage all aspects of customer care, operations and billing. Train, develop and supervise customer call center, customer enrollment, billing and EDI transactions.

Call Center Manager, Florida Department of Transportation, March, 2005 to January, 2006. Manage daily activities of 90 customer service representatives, handling 13k + calls daily. Train, develop and motivate 4 Supervisors, 4 Leads, plus Scheduling Administrator and Call Center Payroll Administrator. Partnered with the Training and Quality Manager and achieved JD Power Certification on our first attempt.

AT&T Wireless Services / McCaw Wireless, 1990 to March, 2004. Rapidly promoted to positions of increased responsibility through this \$10B wireless / telecommunications company.

Director, National Performance Management- AT&T, 1998 to March, 2004. Directed all aspects of integrating new national policies/procedures driven by billing, fraud, legal, and customer service department issues. Managed impacts to operations of 35 call centers, internal and third party, averaging 181K per day. Identified and implemented standardization and improvement opportunities throughout the nation. Developed and introduced Customer Service Roadmap strategies. Utilized measurements for success such as: handle time, percent of base, transfer rate, ASA, occupancy rate, ACW, number of calls handled vs. abandoned, quality scores, schedule adherence, cost per call, reason resolution path rates and on line self service rate.

Lead Project Manager – AT&T, 1995 to 1998. Organized/developed team to handle all call center project work. Developed/implemented reengineering activities/programs to improve customer care business processes.

Customer Care Manager - McCaw, 1994 to 1995. Managed daily activities of 140+ customer care representatives, handling 10k+ inbound calls daily. Trained, developed and motivated 10 supervisors.

Support Services Supervisor - McCaw, 1993 to 1994. Managed all support functionality of Customer Care department, including billing disputes, contract changes, correction of out of sync conditions, and other functions.

Customer Service Representative – McCaw, 1990 to 1993. Handled Customer Care inbound calls, and Save Retention outbound calls to cancelled customers. Initiated Outreach group outbound calls to new customers.

Liberty Power Delaware LLC would like to amend its application to become an electric supplier in the state of Pennsylvania. Liberty Power is a retail electric supplier and intends to supply customers with generation services. After reviewing the applicable Pennsylvania definitions, Liberty Power believes that designation as a Generator and supplier of electric power better fits its business. Therefore, Liberty Power wishes to change its application to reflect its desire to be certified as a Generator and supplier of electric power rather than a Broker/Marketer.
