

§53.64 (c) (8) A list of agreements to transport gas by the utility through its system, for other utilities, pipelines or jurisdictional customers including the quantity and price of the transportation.

Response:

Presently, Columbia Gas of Pennsylvania is not transporting any volumes for other utilities or pipelines. However, Columbia continues to be heavily involved in transportation service for jurisdictional customers.

The requirements of this section are addressed in Exhibit No. 9. Exhibit No. 9 reflects both the throughput and the rate schedule that applies to each traditional end-user transportation customer. Exhibit No. 9 also reflects the customers served under the Choice Program summarized by rate schedule by month.
