**PETITION OF JUST ENERGY PENNSYLVANIA CORP FOR A  
REDUCTION IN LEVEL OF BONDING**

---

**I. Introduction**

1. Just Energy Pennsylvania Corp (“JEPC” or “Company”) is an electric generation supplier (“EGS”) authorized by the Pennsylvania Public Utility Commission (“PaPUC” or “Commission”) to operate as an electric generation supplier and a broker/marketer and aggregator engaged in the business of supplying electricity to residential, small commercial and large commercial customers in all electric distribution company service territories in the Commonwealth of Pennsylvania. JEPC, f/k/a as Pennsylvania Energy Savings Corp, received its initial license to operate as an EGS in the service territory of Duquesne Light Company by Order of December 23, 2009 at Docket No. A-2009-2097544. By Order of June 21, 2012, JEPC obtained authority to operate as an EGC in all electric distribution company service territories in the Commonwealth of Pennsylvania at Docket No. A-2009-2097544. As a licensed EGS, JEPC is subject to the Commission’s authority to require it to furnish a bond or other security in order to operate in the Commonwealth of Pennsylvania, pursuant to Section 2809(c) of the Public Utility Code (“Code”) and Section 54.40 of the Commission’s regulations. 66 Pa.C. S. §2809(c); 52 Pa.Code §54.40.

2. Section 54.40(d) of the Commission’s regulations requires EGSs to provide a security level of 10% of the licensee’s reported gross receipts. However, a licensee may seek approval from the Commission of an alternative level of bonding, commensurate with the nature

and scope of its operations. 52 Pa.Code §54.40(d). According to the Commission's regulations, the purpose of the bond is to ensure payment of the Pennsylvania Gross Receipts Tax ("GRT") and to ensure the supply of electricity at the retail level in accordance with contracts, agreements or arrangements. 52 Pa.Code §54.40(f)(2). On July 24, 2014, after consideration of formal comments submitted to a December 5, 2013 Tentative Order, the Commission found that requiring an EGS to post a bond or security in the amount of 10% of gross receipts after the first year of operation "may be excessive in relation to the risk intended to be secured, unnecessarily burdening EGSs, and presenting a potential barrier to entry into Pennsylvania's retail electric market."<sup>1</sup> Therefore the Commission announced in the July 24, 2014 Order that it was adopting the policy of accepting Petitions by EGSs to reduce their level of bonding/security after the first year of operation to 5% of the EGS's most recent 12 months of gross revenue or \$250,000, whichever is higher. In addition, the July 24, 2014 Order delegated authority to review uncontested requests for a reduction in the level of bonding to the Bureau of Technical Utility Services.<sup>2</sup>

3. Based on the July 24, 2014 Order, the Code, the Commission's regulation at Section 54.40(d) and the following supporting material, JEPC respectfully requests that the Commission approve a reduction in its security requirement to 5% of its most recent 12 months of gross revenue.

## **II. Information Provided in Support of Bond Reduction Request**

4. Prior to filing this Petition to reduce its bonding requirement, JEPC informally consulted with Commission staff to obtain guidance as to the appropriate information to support

---

<sup>1</sup> *Public Utility Commission Bonding/Security Requirements for Electric Generation Suppliers: Acceptable Security Instruments*, Docket No. M-2013-2393141 (July 24, 2014) ("July 24, 2014 Order") at 10.

<sup>2</sup> July 24, 2014 Order at 12-13.

such a request, as was suggested by the Commission in the July 24, 2014 Order.<sup>3</sup> Based on that consultation, this Petition includes Confidential Attachments 1 through 3. Confidential Attachment 1 provides JEPC's gross revenues for the sale of electricity to retail customers in Pennsylvania for the most recent twelve (12) months.

5. Confidential Attachment 2 is a Tax Status Letter of Good Standing obtained by JEPC from the Pennsylvania Department of Revenue ("DOR").

6. Confidential Attachment 3 documents JEPC's full compliance with the requirements of the Alternative Energy Portfolio Standards ("AEPS") Act. This attachment shows compliance data for the most recent 12 month period (June 1 through May 31) taken from the report of the Statewide Administrator of the Pennsylvania AEPS Alternative Energy Credit Program, stating the compliance obligation for the most recent energy year.

7. Based on the foregoing information which demonstrates that JEPC is in compliance with the AEPS Alternative Energy Credit Program and is in good standing with DOR, JEPC requests that its bonding requirement be reduced to 5% of its most recent twelve (12) months of gross revenue. This amount is reasonable and satisfies the requirements of Section 2809(c) of the Public Utility Code ("Code") and Section 54.40 of the Commission's regulations. 66 Pa.C. S. §2809(c); 52 Pa. Code §54.40.

### **III. Relief Requested and Conclusion**

8. Based on its standing as an EGS licensed to do business in Pennsylvania, the Commission's regulations and the July 24, 2014 Order, JEPC respectfully requests that it be authorized to amend its current bond security on file with the Commission to 5% of its most recent twelve (12) months of revenue. Upon approval of this Petition by the Commission, JEPC

will submit a new bond in this amount that also complies with the Commission's bond requirements for EGSs listed in Section 55.40(f) of the Commission's regulations. 52 Pa.Code §54.40(f).

Respectfully submitted,

Dated: February 5, 2016
