RE: Application of Laurel Pipe Line Company, L.P. for All Necessary Authority, Approvals, and
Certificates of Public Convenience To Change the Direction of Petroleum Products Transportation
Service to Delivery Points West of Eldorado, Pennsylvania
Docket No. A-2016-2575829

Dear Secretary Chiavetta,

I serve as the Executive Vice President for the Delaware Valley Fuel Dealers' Association, which is an association of full-service Oilheat dealers in the Philadelphia, Montgomery, Bucks, Chester, and Delaware counties. The association covers a geographical area representing approximately 22% of the households in PA currently using oil to heat their homes. I am writing to express that the Delaware Valley Fuel Dealers' Association strongly supports and advocates for the approval of the subject application. As an association, we believe that the PA Public Utility Commission's approval would help to ensure a more reliable supply of petroleum products to our member's customers while also helping our members to offer competitive prices to these customers. Price advantaged Midwestern refined products will make motor fuels and heating fuels more affordable for all Pennsylvania consumers, both residential and commercial. If the PUC Commission would like to engage in further discussion about this proposal, please do not hesitate to contact me.

Respectfully submitted,

A handwritten signature in black ink that reads "Douglas E. Woosnam".

Douglas Woosnam
EVP, Delaware Valley Fuel Dealers' Association
