Re: Project Application Number: A-2017-2640195

To Whom It May Concern:

We are writing in reference to Transource Pennsylvania's application to construct a high voltage transmission line through Southeastern York County. The proposed project lies within the confines of our legislative districts and potentially impacts scores of property owners who we represent. There is tremendous interest and significant concern among the residents of our community regarding this project, as evidenced by the heavy volume of correspondence we continue to receive.

As the PUC begins the extensive review and input process, we respectfully request that all public hearings pertaining to application number A-2017-2640195 be held in Southern York County. The advantage of conducting the public hearing where the proposed project will be sited is the assurance that those potentially affected property owners, who desire to voice their concerns, will not be burdened with travel issues, time, cost, parking and unfamiliarity with Harrisburg. Holding the public hearing in the home area of the potentially affected property owner is respectful and courteous, and most importantly will result in greater public participation.

In closing, we are pleased to offer the PUC the services of our district office staff facilitate selection of a suitable meeting location and coordinate support for a public hearing.

Sincerely,

Kristin Phillips-Hill  
State Representative  
93<sup>rd</sup> Legislative District

Stan Saylor  
State Representative
