PA PUBLIC UTILITY COMMISSION
SECRETARY'S BUREAU

Pursuant to 52 PA Code § 5.71, *et seq.*, HARRY E. PEIFFER JR. (name) hereby files this Petition to Intervene in the above-captioned proceeding. In support thereof, _____ (name) submits as follows:

1. The name and contact information of the Petitioner is as follows:

HARRY E. PEIFFER JR.
113 DAD BURNHAMS RD.
PINE GROVE PA. 17963 PH# 570-345-4147

2. My interest in this project is as a hunter and fisher at Stewart Farm,
28 Stewart Rd
Arrville PA 17302

3. Existing participants in the filing may not understand: For years, I have enjoyed the natural beauty of the farm and rural area particularly for hunting deer in season. This area of York County farmland is relatively unspoiled and this power line project would have drastic and immediate consequences to the environment, the woods, the farm fields, and especially the wildlife habitat. During construction wildlife patterns will be disrupted, but the long-term effects of buzzing, crackling electrical lines on the landscape last forever. I'm personally worried that the noise will spoil the quiet beauty of the woodlands and electromagnetic waves will affect my health while hunting for days in the woods and the health of the animals. As there are fewer and fewer unspoiled rural areas, we must protect these spaces in our community.

4. The action of this Commission will bind forever a wide swath of tranquil farm land and woods, prohibiting future enjoyment, recreation and good hunting in this area.
 - a. The action of this Commission would allow the utility to enter the land at ANY TIME including hunting seasons and disrupt the lawful hunting harvest.
 - b. The action of this Commission will discourage farmland preservation if it allows electric powerline development on land that has been specifically protected.

WHEREFORE, HARRY E. PEIFFER JR. respectfully requests Pennsylvania Public Utility Commission to investigate and the filing, and strongly impose a condition that all other existing rights of way and infrastructure should be utilized before any new power line projects are approved, and **the Commission should deny the Transource filing.**

Dated: 02/14/2018

Respectfully submitted,
