Re: Centre Park Historic District v. UGI Utilities, Inc., Docket No. C-2015-2516051  
City of Reading v. UGI Utilities, Inc., Docket No. C-2016-2530475

Dear Secretary Chiavetta:

Enclosed for electronic filing is the Answer of the City of Reading to UGI Utilities, Inc.'s Motion to Strike Certain Portions of Complainant's Direct Testimony and Exhibits in the above-referenced matter.

Copies of the Answer are being served in accordance with the attached Certificate of Service.

Should the Commission have any questions regarding this filing, please do not hesitate to contact us.

Very truly yours,

THOMAS, NIESEN & THOMAS, LLC

By

  
Charles E. Thomas, Jr.

Enclosure

**ANSWER OF THE CITY OF READING TO  
UGI UTILITIES, INC.’s MOTION TO STRIKE CERTAIN  
PORTIONS OF COMPLAINANT’S DIRECT TESTIMONY AND EXHIBITS**

---

**I.     BACKGROUND**

Pursuant to 52 Pa. Code § 5.103, the City of Reading (“City” or “Complainant”) submits this Answer to UGI Utilities, Inc.’s (“UGI”) Motion to Strike certain portions of Complainant’s Direct Testimony and Exhibits (“Motion”) in the above matter. Although there is some overlap, Complainant will generally follow the headings used by UGI in its Motion with the understanding that certain of UGI’s assertions in its Background section (for example, the closing of the record in Paragraph 21) require amplification in order not to be misleading. Complainant will address these matters as necessary in Section II of this Answer. At this point, the City notes only with respect to Background that Complainant’s testimony and exhibits were served on June 29, 2018, not on July 3, 2018 as asserted by UGI (Background Paragraph 50).

## **II. UGI'S MOTION TO STRIKE**

As a threshold matter, the City submits that UGI's Motion is premature and should be summarily denied. Complainant's testimony and exhibits have only been served at this stage of the proceeding, *see* 52 Pa. Code § 5.412(f), and have yet to be offered for admission into the record. *See* 52 Pa. Code § 5.402(a) ("A party shall move the admission of evidence into the record upon presentation of the sponsoring witness, and after opportunity for other parties to examine the witness."). Until the City moves to admit the testimony and exhibits of its sponsoring witnesses, there is nothing to strike.

Moreover, denying UGI's Motion does not prejudice UGI in any meaningful way, nor does it preclude UGI from objecting at the appropriate time.<sup>1</sup> UGI will have full and fair opportunity to refute any and all issues and statements raised in the City's direct testimony and exhibits – including those portions it seeks to strike as part of its motion – through rebuttal testimony. In addition, it will have the ability to challenge Complainant's testimony and exhibits through cross examination conducted at the evidentiary hearings. *See* 52 Pa. Code § 5.412(d).

For these reasons alone, the merits of UGI's Motion need not be considered, and the Motion should be summarily denied in its entirety.

### **A. The City's Testimony And Exhibits Regarding Meter Locations That Were Not Personally Surveyed By Complainant's Witnesses Should Not Be Stricken.**

Over the course of Paragraphs 50<sup>2</sup> through 64, UGI contends that testimony and exhibits regarding meter locations that were not personally surveyed by one of the City's witnesses should be stricken because they cannot be authenticated or addressed in cross-examination and,

---

<sup>1</sup> Should UGI's Motion be construed alternatively as an objection to certain portions of Complainant's direct testimony and exhibits, that objection would likewise be premature at this time.

<sup>2</sup> The city notes that UGI's Motion contains two paragraphs numbered 50. It is the second Paragraph 50 that the City addresses in Section A of its Answer.

therefore, amount to inadmissible hearsay. UGI's assertions ignore the procedure the City thought had been worked out in connection with the surveys. All surveys of all properties, both historic and non-historic, were supervised by John Slifko. In addition, all surveyors were trained by Mr. Slifko, according to the procedures set out in the Survey Instruction Sheet, attached hereto as **Attachment A**. Moreover, Mr. Slifko, in his Affidavit and Verification, filed with the Answer of the City to UGI's Motion for Summary Judgment on July 28, 2017, verified that he did indeed supervise the entire survey effort, and did so according to the procedures previously noted. *See* Affidavit and Verification of John Slifko, attached hereto as **Attachment B**.

In the pre-hearing conference of June 15, 2017, there was clearly an expressed desire before the ALJ to streamline the presentation of testimony, due to the extreme volume of data that was to be entered as evidence. It was particularly noted that if UGI were willing to agree that Mr. Slifko, who had been leading and coordinating all of the meter surveying that was done to produce the data that was in the spreadsheet, could testify to the means by which the information was collected generally and that the information in the spreadsheet represented those field surveys, then the parties would not have to produce testimony from each individual property owner who is identified on the spreadsheet or the individual surveyors. *See* Tr. 101-03.

Subsequently, in the Joint Stipulation of September 5, 2017, UGI and the City agreed to the meter locations and permit data in both the historic and non-historic districts, as represented by the spreadsheet matrix attached to the Stipulation.

This is not an unreasonable way to present what are thousands of pieces of data. One individual, who has closely supervised the entire survey effort, testifies to the accuracy of the methodology used, without the need of each surveyor testifying to the veracity of each data bit.

Moreover, each surveyor had already confirmed the accuracy of each line of data on each survey sheet by initialing that line. *See, e.g.*, Exhibit JS-9.

For all the foregoing reasons, the testimony and exhibits concerning meter locations that were not personally surveyed by City witness Slifko should not be stricken. If, however, the Commission so wishes, the City can provide affidavits from each of the other five surveyors, testifying to the authenticity of the meter locations and other data for each historic district which he or she surveyed, and as reflected in the matrix contained in the Joint Stipulation.

**B. The Complainant's Testimony and Exhibits About Meter Locations That Were Not Previously Identified As Being Disputed Should Not Be Stricken.**

Over the course of Paragraphs 65 through 83 of its Motion, UGI contends that testimony and exhibits concerning meter locations that were not previously identified as being disputed should be stricken. Such a contention is founded upon a fundamental misunderstanding of the City's Complaint which covers prior, current and prospective actions by UGI in violation of the regulations at 52 Pa. Code § 59.18 and the Public Utility Code ("Code"). UGI would have Your Honor and the Commission ignore the fact that not only did UGI violate the requirements of the regulations and the Code in the past, it is continuing to do so. UGI is not complying with the requirements for the location of meters in historic districts and in locations affected by outside forces to focus just on two portions of the regulations. The requirements of the regulations and the Code are not static and UGI, as it adds to its violations, should not be permitted to deny the City the ability to add new locations as the Complaint contemplates. *See, e.g.*, City Complaint at ¶¶ 53-65. The request to strike masks UGI's growing noncompliance and should be denied.

The stipulation as to meter locations in the historic district that was made on September 5, 2017 was based on data that had been collected through that time. There was never any

stipulation that this was the exclusive list, or that it was not to cover any meters that would be installed after that time. With UGI continuing to install new outside meters virtually every week in the historic districts, it would not be accurate or fair to say that the meters on the September 5, 2017 list were the only ones being contested.

As UGI correctly notes at Paragraph 85 of its Motion, the City has “reserved the right to ‘supplement this response [to the original discovery request]’ because ‘discovery is ongoing.’” With the situation changing on the ground continually, it must be ongoing.

Moreover, UGI is not prejudiced by the introduction into evidence of newly installed outside meters, as it will have an opportunity to review such evidence before the hearings, respond through rebuttal testimony, and as cross-examine the presenting witness at the August 21-24 hearings.

The survey of non-historic districts was also never intended to be comprehensive through a particular point in time. The sheer scope and number of outside meters located in dangerous proximity to City streets clearly prohibited such a comprehensive survey by the time of the then deadline for discovery of September 3, 2016.

Rather, the survey of non-historic districts covered three selected streets in order to demonstrate a pattern throughout the City of dangerous meter locations in violation of 49 CFR 192.353 and certain provisions of 52 Pa. Code § 59.18. Likewise, the testimony and exhibits from the drive-by survey are meant to show both particularly egregious examples, and the general extent of meter locations dangerously close to City streets. Again, this was presented to demonstrate a pattern, and not to seek relief for certain identified properties only.

UGI’s violations of the regulations and the Public Utility Code cannot be confined to meter locations in the Joint Stipulation.

**C. The Complainant's Exhibits That Were Not Produced In Discovery And Any Testimony Based On Those Exhibits Should Not Be Stricken.**

In Paragraphs 84 through 94 of its Motion, UGI contends that exhibits not produced in discovery and any related testimony should be stricken. The City's response is similar to Section B above. UGI has not been prejudiced. It is UGI which has continued to install meters and relocate meters in violation of the regulations and the Public Utility Code. The relief sought in the Complaint was also prospective. The City should not be restricted to violations prior to May 30, 2017, more than a year ago and prior to orders changing the litigation schedule and dates for the submission of testimony. Indeed, the Interim Order Granting a Further Continuance contemplated updates in the Joint Stipulation which the City addressed in its testimony. Under UGI's contentions, new Complaints would have to be filed almost daily every time there is a new violation. The solution is simple, UGI should comply with the regulations and Code. The request to strike in Section C should be denied.

As UGI correctly notes at Paragraph 85 of its Motion, when the City's discovery responses were submitted on May 30, 2017, the City reserved the right to "supplement this response" and it did so in the testimony of a witness who will testify under oath subject to cross-examination. New outside meters are being installed every week and it is necessary and appropriate to address this in testimony.

Moreover, UGI is not prejudiced by the submission of these supplemental responses at this time, as it will have seven weeks before hearings to review and an opportunity to cross-examine at the hearings itself.

As to the portions of the 27 Exhibits listed at Paragraph 90 of the Motion that do not "appear" to have been produced in discovery, these all represent either: (i) newly discovered material; (ii) documents which UGI should already have in its possession; (iii) public documents

the existence of which UGI should have been aware; (iv) a summary of matrix data already submitted; or (v) other material that is necessary and appropriate to develop a full factual basis for the case.

In specific response to the individual exhibits identified by UGI in Paragraph 90, the City submits:

- JS-3: This map was submitted to UGI in the summer of 2015, when the City sent detailed information to UGI as to the boundaries of all six historic districts in Reading.
- JS-6: This is information that only recently became available to the City, as shown by the June 29, 2018 date of the memo.
- JS-8: This is a public document in blank form. Hundreds of similar forms, filled out by UGI, have already been submitted to UGI as part of the record.
- JS-13: These are first-hand notes taken by Mr. Slifko immediately after meetings with UGI workers and officials. UGI is in no way prejudiced by their submission now, as it will have seven weeks to review and the opportunity to cross-examine Mr. Slifko at the hearings.
- JS-15: This is simply a compilation by Mr. Slifko, as supervisor of all the individual surveyors, of all the survey sheets which they submitted, including their notations as to past vehicular accidents, and other safety hazards. (See Exhibit JS-9, a sample of a completed survey sheet, with the individual surveyor's initials and other comments.) UGI is in no way prejudiced by the submission of this Summary now, as it is already in possession of the basis for most of this Summary through the matrix data of the Joint Stipulation and will have seven weeks to review and the opportunity to cross-examine Mr. Slifko at the hearings.
- JS-18; JS-19: These are public documents that UGI was aware of through numerous earlier filings in the case. It is in no way prejudiced by their actual submission into evidence seven weeks before hearings.
- JS-20: This is a hand-written notation by one of the surveyors, Anita Donatelli, with her initials indicating the veracity of that notation and all other data entered for the property at 616 Pear Street. UGI is in no way prejudiced by the submission of this evidence now, as it will have seven weeks to review before hearings.
- JS-21: This news article concerns an incident that occurred after May 30, 2017. As stated earlier, there were many new outside meters installed post-May 2017, as well as other new events that could indicate potential safety hazards.

- JS-23: See response to JS-15 above, with the additional comment that the summary in JS-23 was based on the surveys which Mr. Slifko himself conducted. UGI is in no way prejudiced by its submission now, as it will have seven weeks to review and the opportunity to cross-examine Mr. Slifko at the hearings.
- JS-24; JS-25: This drive-by survey was conducted in August, 2016 by Mr. Slifko. As stated earlier, it is not intended as evidence of specific violations at specific addresses, but rather to indicate an extensive pattern throughout the City of meter locations dangerously close to the curb. Although specific addresses are not with these pictures, the block numbers of the streets (1200, 1300, etc.) are provided so that the veracity of these close-to-the-curb meter locations can be confirmed. UGI is in no way prejudiced by the submission of this summary evidence now, since - as the installer of these close-to-curb meters - it was obviously aware of their existence. Furthermore, UGI will have seven weeks to review this summary and the basis for it before the hearings in late August.
- JS-26; PH-1; PH-2; PH-4: These pictures were taken as part of the 2016 survey, and had already been submitted through discovery as part of the Joint Stipulation of September 5, 2017.
- PH-3: This picture and news article were only recently obtained. UGI is in no way prejudiced by its submission now, as it will have 7 weeks before the hearings to review and examine the circumstances of this accident. Furthermore, it will have the opportunity to cross-examine Ms. Harter, as a direct witness of the aftermath of this accident, at the August hearings.

To further ensure a lack of prejudice, the City has attached to this Answer, as **Attachment C**, the Bates numbers and other identifying information for all pictures that were included with the exhibits accompanying the witnesses' direct testimony. A Bates number is provided for virtually every picture. For the handful of pictures where no Bates number exists, other identifying information is provided. The request to strike in Section C should be denied.

**D. The Testimony And Exhibits Of Peggy Harter Should Not Be Stricken.**

The witness list submitted by the City on August 17, 2016 involved "potential" witnesses and was never intended to limit the witnesses the City could present, especially given UGI's continuing violations of the regulations and Public Utility Code and the strong likelihood that

new evidence would develop. Indeed, along with the August, 2016 witness list, the City specifically “reserve[d] the right to supplement this list of witnesses, including in response to UGI’s discovery responses.” *See* Motion, Exhibit D at 3. UGI forgets that the Complaint was also prospective and not confined to particular points in time.

In June, 2018, the City became aware that Ms. Harter was a witness to a number of accidents where runaway vehicles struck the front porches of several homes on the 800 block of Schuylkill Avenue. As a resident of that block for over 50 years and a neighborhood leader, she was well suited to testify to the occurrence of these accidents, the damage they inflicted, and the reasons peculiar to the dense, row house environment of the City that make these homes particularly vulnerable to outside forces. Her testimony, the City discovered, could shed light in a very real and concrete way on the dangers of outside meters located close to City streets.

As to UGI’s concerns that Ms. Harter is introducing new issues and allegations, that is simply not true. The danger from traffic patterns on busy, narrow streets has always been an issue in this case. Likewise, there has always been a safety issue with other aspects of close-to-curb locations beyond vehicular damage, including the trip hazards created by placing outside meters in narrowly confined pedestrian walkways.

In addition, the issue of snow and ice accumulation in the narrow space between porch and curb is not new with Ms. Harter’s testimony. Virtually all the survey sheets listed snow and ice accumulation in the vicinity of outside meters as a potential hazard. *See* Joint Stipulation, Matrix. Ms. Harter’s testimony simply confirms and corroborates issues that have already been raised.

Finally, UGI is in no way prejudiced by Ms. Harter’s testimony as it will have seven weeks to review and prepare for cross-examination of Ms. Harter.

**E. The Complainant's Testimony And Exhibits About New Tripping Incidents Should Not Be Stricken.**

In Paragraphs 119 through 129, UGI contends that Complainant witness Slifko's testimony and exhibits about new tripping incidents should be stricken because discovery closed on May 30, 2017 and as of March 12, 2017, no person had reported an injury to the City. Once again, UGI fails to understand that the Complaint covers prior, current and prospective actions by UGI. The City's Complaint is not limited to specific violations of the regulations and the Public Utility Code occurring more than a year ago. Paragraphs 61 through 64 of the City's Complaint had prospective application beyond May 30, 2017, and expressly stated:

61. In locating its exterior gas meters in close proximity to City streets and on narrow sidewalks where they create safety hazards for passing pedestrians, UGI has failed to "consider potential damage by outside forces," in violation of 52 Pa. Code § 59.18(a)(5).
62. In locating exterior gas meters in close proximity to City streets and on narrow sidewalks where they create safety hazards for passing pedestrians, UGI has failed to locate gas meters in "protected location[s]" in violation of 52 Pa. Code § 59.18(b)(1).
63. In locating exterior gas meters in close proximity to City streets, UGI has failed to consider "vehicular damage that may be anticipated" in violation of 49 CFR § 192.353(a).
64. UGI's meter placement practices constitute an actual and demonstrated threat to public safety, a risk of property damage, and an inordinate threat to the health and welfare of the people of the City.<sup>3</sup>

UGI has not been prejudiced and will have had almost two full months to prepare for Mr. Slifko's cross-examination and inquire about any alleged withholding of information. Testimony and exhibits regarding new tripping incidents should not be stricken.

---

<sup>3</sup> City of Reading Complaint at page 17, ¶¶ 61-64.

**F. The Complainant's Testimony And Exhibits About Potential Vandalism, Meter Freeze-Ups And Other Outside Forces Are Not Outside The Scope Of The Complaint And Should Not Be Stricken.**

In Section F, Paragraphs 130 through 142, UGI turns from tripping to vandalism, meter freeze-ups and other similar issues which it claims are outside the scope of the Complaint because they were not compliance issues identified in the Complaint. The City respectfully disagrees and will allow its Complaint, as quoted above in Section E, for example, to speak for itself. These matters are not outside the scope of the Complaint, the regulations or the Public Utility Code. UGI has plenty of time to prepare responsive testimony and cross-examination. For UGI to suggest that it is not required to consider water, snow, ice accumulation and potential vandalism when it is placing meters is just irresponsible. Consideration of outside forces is not outside the scope of the Complaint or the requirements of Section 1501 of the Public Utility Code. UGI's gas operations manual cannot be disregarded. Complainant's testimony and exhibits regarding potential vandalism, meter freeze-ups and other outside forces should not be stricken.

**G. The Complainant's Testimony About Meters Marked As Being Under Windows But Not Under Openings That Could Be Used As A Fire Exit Is Informational And Should Not Be Stricken.**

Over the course of Paragraphs 144 through 152, UGI contends that Complainant is attempting to revive claims concerning meters marked in surveys as being under openings that could be used for fire exits. Complainant was not attempting to revive claims that were summarily dismissed but, rather, was attempting to explain the survey forms and trying to make certain, considering the prospective application of the Complaint, that the regulations at 52 Pa. Code § 59.18(a)(8), which we quote below, are not overlooked:

(8) Meters and service regulators may not be installed in the following locations:

- (i) Beneath or in front of windows or other building openings that may directly obstruct emergency fire exits.
- (ii) Under interior stairways.
- (iii) Under exterior stairways, unless an alternate means of egress exists and the meter and service regulator are installed in a well-vented location under stairs constructed of noncombustible material.
- (iv) A crawl space.
- (v) Near building air intakes under local or State building codes.
- (vi) In contact with soil or other potentially corrosive materials.

UGI has not been prejudiced. It must comply with the regulations. The subject testimony should not be stricken.

**H. The Third Party Statements In Complainant’s Testimony And Exhibits Are Not Inadmissible Hearsay And Should Be Admitted Into The Record.**

In Paragraphs 153 through 157 of its Motion, UGI contends that certain of Complainant’s testimony and exhibits contain third party out-of-court statements “being offered to prove the truth of the matter asserted” and should be stricken as inadmissible hearsay.<sup>4</sup> UGI identifies twenty-eight particular examples of purported hearsay statements in Paragraph 154.

It is well established that the strict rules of evidence – including the rule against hearsay – are relaxed in Commission hearings under the Administrative Agency Law. *See* 2 Pa.C.S. § 505. Indeed, presiding officers are not bound by the rules of evidence and routinely receive and admit hearsay if relevant to develop the record, provided, however, that hearsay evidence may not be given the same weight as non-hearsay evidence and, if properly objected to, may only support a

---

<sup>4</sup> Hearsay is an out-of-court statement made by a declarant and offered by a party to prove the truth of the matter asserted in the statement. *See* Pa.R.E. 801. Hearsay is generally inadmissible unless it falls into an exception recognized by the Pennsylvania Rules of Evidence, other rules prescribed by the Pennsylvania Supreme Court, or statute. Pa.R.E. 802; *see also* Pa.R.E. 803, 803.1, 804.

finding if corroborated by other non-hearsay evidence. The Commission recently summarized the principles governing decisions on hearsay objections in its proceedings, as follows:

Under the relaxed evidentiary standards applicable to administrative proceedings, *see* 2 Pa. C.S. § 505, it is well-settled that simple hearsay evidence, which otherwise would be inadmissible at a trial, generally may be received into evidence and considered during an administrative proceeding. *D'Alessandro v. Pennsylvania State Police*, 937 A.2d 404, 411, 594 Pa. 500, 512 (2007) (D'Alessandro). The Supreme Court of Pennsylvania stated:

'Hearsay' is a statement, other than one made by the declarant while testifying at the trial or hearing, offered in evidence to prove the truth of the matter asserted." Pa. R.E. 801(c). Hearsay evidence is normally inadmissible at trial unless an exception provided by the Pennsylvania Rules of Evidence, this Court's jurisprudence, or statute is applicable. Pa. R.E. 802. Complicating this general rule in the administrative law context, however, is Section 505 of the Administrative Agency Law: "Commonwealth agencies shall not be bound by technical rules of evidence at agency hearings, and all relevant evidence of reasonably probative value may be received. Reasonable examination and cross-examination shall be permitted." 2 Pa. C.S. § 505. Therefore, hearsay evidence may generally be received and considered during an administrative proceeding. *See A.Y. v. Commonwealth, Dep't of Pub. Welfare, Allegheny County Children & Youth Serv.*, 537 Pa. 116, 641 A.2d 1148, 1150 (1994).

*Id.*

However, whether simple hearsay may support a finding of an agency depends on whether the evidence meets the criteria of the *Walker/Chapman* rule. The *Walker/Chapman* rule provides that simple hearsay evidence may support an agency's finding of fact so long as the hearsay is admitted into the record without objection and is corroborated by competent evidence in the record. *See Walker v. Unemployment Compensation Board of Review*, 367 A. 2d 366, 370 (Pa. Cmwlth. 1976) (*Walker*) (citations omitted); *see also Chapman v. Unemployment Compensation Board of Review*, 20 A. 3d 603, fn. 8 (Pa. Cmwlth. 2011) (*Chapman*). Specifically, the Commonwealth Court stated:

Hearsay evidence, properly objected to, is not competent evidence to support a finding of the agency... Hearsay evidence, admitted without objection, will be given its natural probative effect and may support a finding of an agency if it is corroborated by any competent evidence in the record . . . a finding of fact based solely on hearsay will not stand.

*Walker*, 367 A. 2d at 370.

To be “properly objected to” in an administrative proceeding, the hearsay evidence must not fall within one of the recognized exceptions to the rule against hearsay. Hearsay that falls within one of the recognized exceptions to the hearsay rule is competent evidence that may be relied upon by the agency. *See Chapman, supra*, n. 8 (finding that the Board properly relied upon a party’s admission as competent evidence as a recognized exception to the hearsay rule); *see also Ruth Sanchez v. PPL Electric Utilities Corporation*, Docket No. C-2015-2472600 (Order entered July 21, 2016) (*Sanchez*) (finding that testimony related to the issuance of a termination letter fell within the business records exception to the hearsay rule, and, therefore, was not simple hearsay, and was competent evidence to be relied upon in the proceeding to determine whether the complainant satisfied her burden of proof); *see also* Pa. R.E., Rules 802, 803, 803.1, 804.

*Catherine J. Frompovich v. PECO Energy Co.*, Docket No. C-2015-2474602 (Opinion and Order entered May 3, 2018), slip op. at 17-18 (citations in original).

Contrary to its claims, the vast majority of the statements identified by UGI in Paragraph 154 of its Motion are not hearsay. For example:

- Items (i) and (ix) (relating to a memorandum prepared by Amy Johnson, the City’s Historic Preservation Specialist, dated June 29, 2018, about potentially eligible historic districts) are records of a regularly conducted activity of the City’s Historic Preservation office and fall within the business records exception under Pa.R.E. 803(6).<sup>5</sup>
- Items (ii), (xiii) and (xxvii) (relating to statements about conversations with UGI personnel) include statements made by UGI representatives which fall within the party-opponent exception under Pa.R.E. 803(25).
- Items (iv), (v), and (xvi) (relating to reports prepared by the City’s fire department in response to several incidents) are records of a regularly conducted activity of the

---

<sup>5</sup> To the extent necessary, Complainant can provide a verification or affidavit certifying the information therein.

City's fire department and fall within the business records exception under Pa.R.E. 803(6).<sup>6</sup>

- Items (vi), (xii), (xiv) and (xx) (pertaining to matters related to Complainant's survey of gas meters) represent statements describing or explaining an event or condition, made immediately after the declarant perceived it and thus fall within the meaning of a present sense impression under Pa.R.E. 803(1). *See also* Comment to Rule 803(1) (providing that the declarant need not be excited or otherwise emotionally affected by the event or condition perceived for this exception to apply). Moreover, as explained in Section II.A. *supra*, all surveys were conducted under the direct supervision of Mr. Slifko and in accordance with the procedures outlined in the Survey Instruction Sheet. UGI will be able to cross examine Mr. Slifko at hearing on the surveys' findings and the actions taken during the surveys.
- Items (xxiv) and (xxv) (relating to statements made by Peggy Harter raising concerns with meter tampering and snow removal) are not out-of-court statements, but rather are Ms. Harter's very own statements made while testifying under oath in this proceeding. As such, these statements unequivocally cannot be hearsay.
- Items (xxvi) and (xxviii) (relating to statements made by Michael Lauter about the Callowhill historic district) are not out-of-court statements, but instead represent his observations made while testifying under oath in this proceeding. These statements are not intended to be assertions and, therefore, cannot be hearsay.
- Items (vii) and (xviii) (relating to a newspaper article published in the *Reading Eagle* regarding an accident) include statements made by UGI spokesman Joseph Swope

---

<sup>6</sup> To the extent necessary, Complainant can provide a verification or affidavit certifying the information therein.

which fall within the party-opponent exception under Pa.R.E. 803(25). Moreover, to the extent necessary, Complainant submits that the Commission can take judicial notice of this article which was published the day after the incident pursuant to 52 Pa. Code § 5.408. *See Pa. P.U.C. v. Columbia Gas of PA, Inc.*, Docket No. C-20077249 (Tentative Opinion and Order entered Sept. 4, 2009) (taking judicial notice of newspaper articles and citing 52 Pa. Code §5.408(a) and *Tilghman v. Pennsylvania*, 366 A.2d. 966, 967 (Pa. Cmwlth. 1976), *aff'd*, 374 A.2d 535 (Pa. 1977) (authorizing judicial notice of newspaper articles)).

- Similarly, items (ix) and (xxiii) (relating to two newspaper articles published in the *Allentown Morning Call* and *Philadelphia Inquirer*) can be judicially noticed pursuant to 52 Pa. Code § 5.408.
- Many of the remaining statements identified are not being “offered for the truth of the matter asserted” and thus cannot be defined as hearsay. *See, e.g.*, item (xxi) (statement is not being offered to prove that gas escaped, but rather that excess flow valves may be unreliable); items (viii) and (xxii) (statements are not being offered to prove that residents tripped over particular meters, but instead to show there is a general concern about tripping hazards, as well as a likelihood that trip hazards exist); items (iii), (viii), (xvii), and (xix) (statements regarding vehicular accidents are not being offered to show that a particular accident occurred, but rather to demonstrate there is a concern among City residents that there is a likelihood of meters being struck), and item (x) (newspaper article published in the *Reading Eagle* is not being offered to prove that a car crashed into a tree during a police chase, but rather to show there is a concern among City residents that there is a likelihood of meters being

struck; additionally, the Commission pursuant to 52 Pa. Code § 5.408 can take judicial notice of this article which was published the day after the incident).

Even if some of the statements identified by UGI are deemed to be hearsay, the statements should nevertheless be admitted into the record and assigned the appropriate weight by the presiding ALJ, consistent with normal Commission practice with respect to hearsay. The statements should not be stricken as UGI requests.

### **III. CONCLUSION**

WHEREFORE, for the foregoing reasons, Complainant City of Reading respectfully requests that the Commission deny UGI Utilities, Inc.'s Motion to Strike in its entirety.

Respectfully submitted,

---

DATED: July 17, 2018

# **ATTACHMENT A**

## **Survey Form Instruction Sheet**

The City of Reading has filed a complaint with the Pennsylvania Public Utilities Commission (PUC) against UGI Utilities, the local gas provider for City residents. The complaint is related to UGI's relocation of gas meters to the outside of buildings in the City's historic districts. By locating gas meters on the outside of these buildings, UGI is significantly degrading the aesthetic appeal of these districts and failing to abide by the PUC's regulations. As part of its case, the City must collect information about gas meters that UGI has already installed on the outside of buildings in historic districts.

There are two parts to a gas meter installation: the gas meter itself and the regulator. Generally, we are only concerned with gas meters; not regulators. Regulators are typically smaller than gas meters. Sometimes you may see a regulator without a gas meter. This most likely means that the gas meter is located inside of the building. A gas regulator will always be on the exterior of the building. Below are pictures of both a gas meter with a regulator and just a regulator. Please remember that there are several different types of gas meters and regulators being installed by UGI, so what you see while collecting data may differ from these images.

The procedure for collecting the information we need is not complicated, but requires close attention to detail and conformity with the procedures described in this sheet (especially related to taking pictures). The following is a brief explanation of what information needs to be collected on the attached Survey Form and how we would like you to take the necessary pictures of each violation.

### **Surveyor Identification**

First, please write your initials in the upper right hand corner of all pages of the Survey Form you put information into. This will identify who collected the information and help to organize the pictures taken by each surveyor.

### **Street Picture Identification**

Every property on the Survey Form must also have a set of supporting pictures that document the outside meter, any violations identified (i.e. placement under a window, placement in an area where snow can accumulate, placement near a building intake), and the address of the property. The first thing we ask you to do when you arrive on a new street is to take a picture of the street for the street on which the properties you are evaluating are located. This will serve as a tag for which street all of the subsequent properties are located on. In your picture, please try to make clear which street you are evaluating and try not to have too much of the street sign for any cross street in the picture. It will be confusing if it is not clear which street you are working on.

**Column 1: Historic District**

This column identifies the historic district that the property is located in. Each district has been assigned an abbreviation. A key for identifying which district is associated with which abbreviation is included at the bottom of each Survey Form page.

**Column 2 and 3: Street Number and Street Name**

This column provides the street address for every property for which information must be collected.

**Column 4: Outside Meter?**

In this column you will record whether the property has an exterior gas meter or not. If you see a gas meter on the outside of the building please place a “Y” in this column. If you only see a regulator and no gas meter or no gas apparatus at all, please place an “N” in this column. If a property does not have an outside gas meter, no further information must be filled in for that property. The first 369 properties on the survey form are already known to have exterior gas meters based on permits submitted by UGI. Therefore, this column will only need to be completed for properties 370 through 650.

**Property Number Picture Identification**

After you have determined that there is an outside gas meter, please take a picture of the property number. By matching up the picture of the street name and the picture of the property number, we will be able to determine which pictures go with which property.

**Column 5: Meter to curb distance**

Please measure and record the distance from the front of the meter to the curb. Measurements should be in inches. Below is a diagram representing where measurements should be taken from.

**Column 6: Is the meter located under a fire escape? (Y/N)**

Gas meters are not permitted to be located beneath a fire escape. If a gas meter is located beneath a fire escape, please place a “Y” in this column and take a picture of the violation. Otherwise, please record an “N.”

**Column 7: Is the meter located under a window? (Y/N)**

Gas meters are not permitted to be located beneath a first floor window. If a gas meter is located beneath a first floor window, please place a “Y” in this column and take a picture of the violation. Otherwise, please record an “N.”

**Column 8: Is the meter located under an exterior staircase? (Y/N)**

Gas meters are not permitted to be located beneath an exterior staircase. If a gas meter is located beneath an exterior staircase, please place a “Y” in this column and take a picture of the violation. Otherwise, please record an “N.”

**Column 9: Is the meter located under an opening that that could be used as an emergency fire exit? (Y/N)**

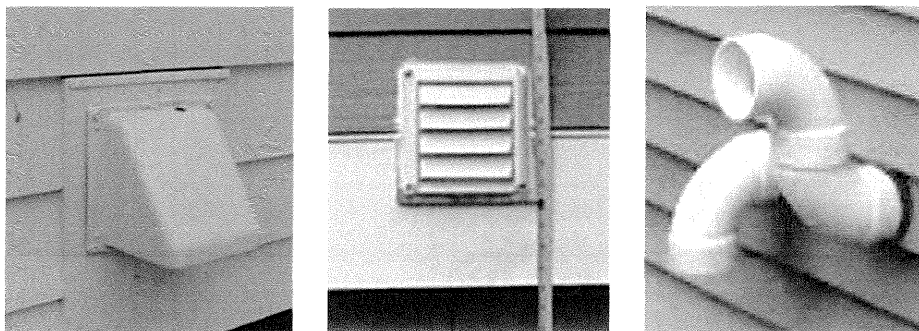

Gas meters are not permitted to be located beneath an opening that could be used as an emergency fire exit. This includes doors, windows, or any other opening that could be used during a fire emergency to exit the building. If a gas meter is located beneath an opening that could be used as an emergency fire exit, please place a “Y” in this column and take a picture of the violation. Otherwise, please record an “N.”

**Column 10: Is the meter located in a known water runoff location? (Y/N)**

Gas meters are not permitted to be located in areas where water runs off of a building. This includes under roof eaves without gutters, and next to down spouts. If a gas meter is located in an area where water runs off of a building, please place a “Y” in this column and take a picture of the violation. Otherwise, please record an “N.”

**Column 11: Is the meter located near a building air intake? (Y/N)**

Gas meters are not permitted to be located near a building air intake, such as a ventilation fan. If a gas meter is located near (less than 10 feet from) a building air intake, please place a “Y” in this column and take a picture of the violation. Otherwise, please record an “N.” Below are examples of what a building air intake might look like. Please note that these are not exhaustive. When in doubt please take a picture.

**Column 12: Is the meter located in an area where accumulation of snow/ice is likely? (Y/N)**

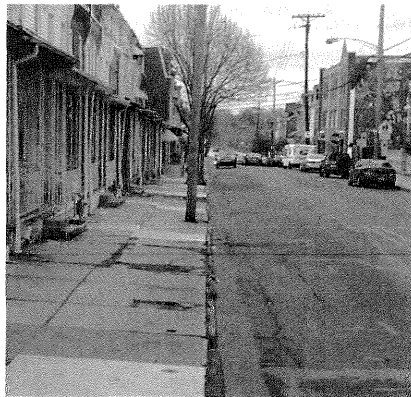

Gas meters are not permitted to be located in an area where snow and ice is likely to accumulate. This includes areas under roof eaves or next to stoops or other building features where snow can blow and drift against the building. If a gas meter is located in an area where snow and ice is likely to accumulate, please place a “Y” in this column and take a picture of the violation. Otherwise, please record an “N.”

**Column 13:** Is meter/ regulator in contact with soil/corrosive materials? (Y/N)

Gas meters and regulators are not permitted to be located such that they are in contact with soil or other corrosive materials. If a gas meter or regulator is in contact with soil or other corrosive materials, please place a “Y” in this column and take a picture of the violation. Otherwise, please record an “N.”

**Column 14:** Does a parking lane separate the sidewalk from the primary lane of car travel? (Y/N)

Gas meters cannot be located such that they are at risk of being hit by a passing vehicle. Typically this is not an issue where a lane of parking separates the sidewalk from the primary lane of travel. However, a number of streets in the City are designed such that the primary lane of traffic is directly adjacent to the sidewalk, meaning that out of control cars can easily hop the curb and collide with an exposed gas meter. If the gas meter is located such that no parking lane or other barrier separated the primary lane of travel from the sidewalk, please place a “Y” in this column and take a picture of the violation. Otherwise, please record an “N.”

No parking separating sidewalk from primary lane of travel

Parking lane separating sidewalk from primary lane of travel

**Column 15:** Is there an alternative unobtrusive location? (Y/N)

Gas meters may be placed by a gas utility in locations that are less obtrusive than directly in front of buildings in the historic districts. Please evaluate whether such an unobtrusive location exists. Alternative unobtrusive locations include the side of a property within 10’ of the front corner, or an adjacent alleyway. If you identify an alternative unobtrusive location where the meter could be located, please place a “Y” in this column and take a picture of the alternative location. Otherwise, please record an “N.”

**Column 16:** Picture?

Next take pictures of any violations you have identified (basically anything on the Survey Form for which you wrote a “Y” in columns 6 through 15). Once you have taken pictures documenting the violations, place a “Y” in this column.

**Wrap Up**

When you are finished collecting information for all of the properties you are assigned, please make sure to return the completed Survey Form to City Hall and be sure to transfer the pictures you have taken via email, flash drive, or direct download from your device to the designated individual with the City.

**City of Reading v. UGI Utilities, Inc.**  
**Docket No. C-2016-2530475**

Dear Sir/Madam:

Enclosed for filing with your office please find an original of the Affidavit and Verification of John Slifko, filed with the Answer of the City of Reading and Centre Park Historic District, Inc. to the Motion for Summary Judgment of UGI Utilities, Inc. in the above-captioned matters.

The originals are being forwarded pursuant to the requirements of 52 Pa.Code § 1.36.

Thank you for your kind attentions in this matter.

Very truly yours,

  
Michael E. Peters

CITY OF READING, :

v. :

Docket No. C-2016-2530475

UGI UTILITIES, INC. :

**AFFIDAVIT OF JOHN SLIFKO**

**IN SUPPORT OF RESPONSE TO UGI'S MOTION FOR SUMMARY JUDGMENT**

John Slifko, being duly sworn, hereby deposes and says:

1. I am a Councilman appointed to the City Council of the City of Reading. I am familiar with the facts set forth herein.

**RECEIVED**

JUL 28 2017

PA PUBLIC UTILITY COMMISSION  
SECRETARY'S BUREAU

2. I executed an affidavit dated July 5, 2017, previously filed (with exhibits) before the Public Utility Commission as part of the City of Reading's Motion for Summary Judgment. A true and correct copy of my July 5, 2017 affidavit is attached hereto as Ex. "A", less exhibits.

3. During August 2016 and April 2017 I supervised an effort to survey UGI's meter relocation program within the City's six historic districts, and selected non-historic areas.

4. I personally surveyed a large number of properties in the historic districts and all of the properties in the non-historic areas of the City.

5. I participated in the training of other City employees to do the same.

6. In addition to myself the City hired five other surveyors: Anita Donatelli, Beth Ireland, Maria Ballas, Melvyn Jacobson, and Nadine Smet-Weiss.

7. Surveyors visited each of the properties assigned to them and filled out the survey instrument for each property.

8. Surveys were taken each day from August 19 through August 31, 2016, with additional surveys being performed on April 3, April 4, April 7, and April 12, 2017.

9. Surveyors completed a spreadsheet of the type and nature attached hereto as Ex. "B".

10. Column 7 on the spreadsheet asked whether the observed meter was "[u]nder a window?" I intended that this column designate the meters that were placed under windows that could serve as a fire exit.

11. Column 9 on the spreadsheet separately asked whether the observed meter was "[u]nder an opening that could be a fire exit?" I intended that this column designate openings other than windows that could serve as a fire exit.

2. I executed an affidavit dated July 5, 2017, previously filed (with exhibits) before the Public Utility Commission as part of the City of Reading's Motion for Summary Judgment. A true and correct copy of my July 5, 2017 affidavit is attached hereto as Ex. "A", less exhibits.

3. During August 2016 and April 2017 I supervised an effort to survey UGI's meter relocation program within the City's six historic districts, and selected non-historic areas.

4. I personally surveyed a large number of properties in the historic districts and all of the properties in the non-historic areas of the City.

5. I participated in the training of other City employees to do the same.

6. In addition to myself the City hired five other surveyors: Anita Donatelli, Beth Ireland, Maria Ballas, Melvyn Jacobson, and Nadine Smet-Weiss.

7. Surveyors visited each of the properties assigned to them and filled out the survey instrument for each property.

8. Surveys were taken each day from August 19 through August 31, 2016, with additional surveys being performed on April 3, April 4, April 7, and April 12, 2017.

9. Surveyors completed a spreadsheet of the type and nature attached hereto as Ex. "B".

10. Column 7 on the spreadsheet asked whether the observed meter was "[u]nder a window?" I intended that this column designate the meters that were placed under windows that could serve as a fire exit.

11. Column 9 on the spreadsheet separately asked whether the observed meter was "[u]nder an opening that could be a fire exit?" I intended that this column designate openings other than windows that could serve as a fire exit.

12. Included among the violations observed by the surveyors, and me, was the placement of meters "beneath or in front of windows" that could serve as fire exits.

13. If a surveyor observed that a meter was located beneath or in front of a window that could serve as a fire exit, the surveyor inserted a "Y" on the spreadsheet in column 7 ("Under a window?"); if not, the surveyor inserted an "N".

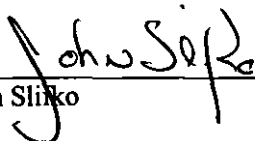

14. Although the windows could serve as a fire exit, Surveyors were not instructed to also place a "Y" in column 9, which was organized to be a different category, as stated above.

15. A "Y" in column 7 ("Under a window") also, therefore, indicates that the meter is located "[u]nder an opening that could be a fire exit."

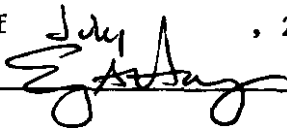

16. Put another way, an "N" in column 9 does not indicate that the window above which any given meter is located could not serve as a fire exit.

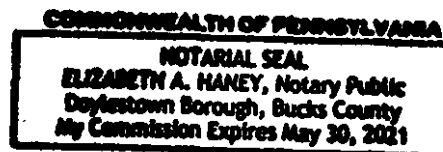

17. Additionally, with regard to the properties that I personally surveyed, when I observed that a meter was placed below a window that could serve as a fire escape, I only marked column 7 ("Under a window?") and not Column 9 ("Under an opening that could be a fire exit?").

18. I, John Slifko, being duly sworn according to law, depose and say that I am authorized to make this Affidavit on behalf of the City of Reading, being the holder of the office of City Councilman, and that the facts set forth above are true and correct to the best of my knowledge, information, and belief.

**AFFIDAVIT OF JOHN SLIFKO**  
**IN SUPPORT OF MOTION FOR SUMMARY JUDGMENT**

John Slifko, being duly sworn, hereby deposes and says:

1. I am a member of the City Council of the City of Reading. I am familiar with the facts set forth herein.

2. UGI Utilities, Inc. ("UGI") has undertaken a number of "betterment" projects in the City of Reading (the "City").

3. During this process UGI replaced gas mains, laterals, and relocated gas meters from the interior of buildings to the exterior of buildings.

4. UGI has relocated a number of meters from interior to exterior locations both within and outside historic districts in the City of Reading (the "City").

5. The City has six designated historic districts: the Callowhill Historic District (locally designated), the Centre Park Historic District (locally designated), the Heights Historic District (locally designated), the Prince Historic District (locally designated), the Penn's Commons Historic District (locally designated), and the Queen Anne Historic District (nationally registered).

6. Between August 2016 and April 2017, I supervised an effort to survey all of the meter relocations in the City's six historic districts, and selected non-historic areas.

7. I participated in the training of other City employees to do the same.

8. In addition to myself, the City hired five other surveyors: Anita Donatelli, Beth Ireland, Maria Ballas, Melvyn Jacobson, and Nadine Smet-Weiss.

9. After receiving training on the survey instrument, which was targeted at identifying specific violations with regard to 52 Pa. Code § 59.18, each surveyor was given a list of properties where City records indicated UGI had installed gas meters on the exterior of buildings in the historic districts.

10. Surveyors visited each of the properties assigned to them and filled out the survey instrument for each property.

11. While surveyors were reviewing their assigned properties, they also identified additional properties on the same streets where gas meters were found on the exterior of buildings.

12. Each surveyor was provided with a City-owned Amazon Fire tablet device that was capable of taking color photographs.

13. For any property where an exterior meter was found, the surveyor took pictures of the house number; the exterior meter; any specific violations of 59.18 noted on the survey instrument; and any alternative, less intrusive locations for an exterior meter.

14. In some cases this information was captured in a single photograph, and in some cases, multiple photographs were necessary.

15. After the surveyor completed their assigned areas, the surveyor returned the completed survey instrument forms and Amazon Fire to the City Clerk's office, where the pictures were downloaded and transmitted to our legal counsel.

16. Surveys were taken each day from August 19 through August 31, 2016, with additional surveys being performed on April 3, April 4, April 7, and April 12, 2017.

17. I personally surveyed 150 properties in the Centre Park, Heights, Penn's Commons, and Queen Anne Historic Districts, as well as all 673 properties in non-historic areas of the City on August 22, 23, 24, 26, and 27, 2016 and April 3, 4, 7, and 12, 2017.

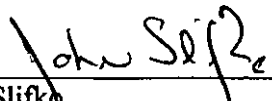

18. The properties inspected by me as referenced in paragraph 17 are identified in the CITY OF READING GAS METER SURVEY RESULTS MATRIX (Historic District and Non-Historic Properties) attached hereto as Exhibit "A" to this Affidavit. Each meter that I inspected is noted on Exhibit "A," and the photographs identified by Bates number for each meter were

taken by me as a part of the survey of each property. These photographs are attached as part of Exhibit A.

19. Some of the most urgent violations that need to be addressed are safety violations. For the purposes of this affidavit, I have attached a spreadsheet with accompanying photographs documenting individual properties and the locations to which UGI relocated their gas meters as Exhibit "A."

20. I either personally took the photographs in these pictures or am familiar with the properties and current conditions thereon and verify that the photographs are a fair and accurate depiction of the properties and current conditions thereon. True and correct copies of these photographs are attached hereto as part of Exhibit "A", as Exhibits A-1, A-2, and A-3.

21. I am authorized to make this Affidavit on behalf of the City of Reading, being the holder of the office of City Councilman, and that the facts set forth above are true and correct to the best of my knowledge, information, and belief.

|---------------------------|---|
| (a) 774 Schuylkill Avenue | This actual picture was not entered into the Bates system. However, Bates #03398 shows a very similar shot.                   |
| (b) 774 Schuylkill Avenue | This actual picture was not entered into the Bates system. However, Bates #03396 shows a similar shot from across the street. |

## II. Witness Michael Lauter

- ML – 1 Pictures of Callowhill Historic District (6 pictures)
- (a) 321 N. 5<sup>th</sup> St (5 meters in a row) Bates # 00320
  - (b) 306 N. 5<sup>th</sup> St (bank of 6 meters) Bates # 00318
  - (c) 307 N. 5<sup>th</sup> St (3 meters in corner) Bates # 00317
  - (d) 323 N. 5<sup>th</sup> St (Wallace Stevens sign) Bates # 00325
  - (e) 323 N. 5<sup>th</sup> St (Wallace Stevens home) Bates # 00326
  - (f) 329 N. 5<sup>th</sup> St (Holy Cross Church) Bates # 00327
- ML – 2 Picture of Centre Park Historic District (1 picture)
- (a) From 845 Rose looking south to 825 Rose This actual picture was not entered into the Bates system. However, Bates #00118 is virtually identical.
- ML – 3 Pictures of Queen Anne Historic District (10 pictures)
- (a) 106 S. 4<sup>th</sup> St (not in Queen Anne, but in area eligible for historic designation) Bates # 07142
  - (b) 160 W. Green looking west (in Queen Anne, as are (c) through (j)) Bates # 04749
  - (c) 168 W. Green looking east Bates # 04738
  - (d) 180 W. Green (brick walkway) Bates # 04720
  - (e) 180 W. Green Bates # 04719
  - (f) 186 W. Green (red steps) Bates # 04715
  - (g) 148 W. Green Bates # 04762
  - (h) 190 W. Green Bates # 04701
  - (i) 329 W. Greenwich (brick walkway) Bates # 04588
  - (j) 224 W. Greenwich Bates # 04573

### III. Witness John Slifko

JS – 16 Pictures of Callowhill, Centre Park Historic Districts (7 pictures)

- (a) 321 N. 5<sup>th</sup> St (5 meters in a row) Bates # 00320
- (b) 306 N. 5<sup>th</sup> St (bank of 6 meters) Bates # 00318
- (c) 307 N. 5<sup>th</sup> St (3 meters in corner) Bates # 00317
- (d) 323 N. 5<sup>th</sup> St (Wallace Stevens sign) Bates # 00325
- (e) 323 N. 5<sup>th</sup> St (Wallace Stevens home) Bates # 00326
- (f) 329 N. 5<sup>th</sup> St (Holy Cross Church) Bates # 00327
- (g) From 845 Rose looking south to 825 Rose This actual picture was not entered into the Bates system. However, Bates # 00118 is virtually identical.

JS – 22 Picture and identifying letter of accident at 306 N. 5<sup>th</sup> St 3/26/17

I do not believe this information was entered into the Bates system. However, the occurrence of the accident was personally witnessed and verified by Mr. Slifko.

JS – 25 Pictures of 3 selected non-historic streets; pictures from Drive-by Survey of non-historic streets (29 pictures)

#### Cotton Street

- (a) From 1255 Cotton looking west to 1237 Cotton This picture was taken on 4/21/14 and was not entered into the Bates system. However, on 7/15/18 Mr. Slifko personally examined this section of Cotton Street and verified that this picture is a true and accurate image of the Street today.
- (b) 1035, 1037 Cotton Bates # 07092
- (c) 1501, 1503, 1505 Cotton Bates # 07098
- (d) 1458 Cotton Bates # 07105
- (e) 1408 Cotton Bates # 07103
- (f) 1657, 1659, 1661, 1663 Cotton Bates # 07110
- (g) 1441 Cotton Bates # 07104

- (h) 1328 Cotton Bates # 07101
- (i) 1733, 1735 Cotton Bates # 07114

N. 10<sup>th</sup> Street

- (j) 1400 block of N. 10<sup>th</sup> St Bates # 00348
- (k) 1449 N. 10<sup>th</sup> St Bates # 07128
- (l) 1560 N. 10<sup>th</sup> St Bates # 07123
- (m) 1453 N. 10<sup>th</sup> St Bates # 07127
- (n) 1333, 1335 N. 10<sup>th</sup> St Bates # 07131
- (o) 1347A N. 10<sup>th</sup> St Bates # 07130
- (p) 1411 N. 10<sup>th</sup> St Bates # 07129
- (q) 516A N. 10<sup>th</sup> St Bates # 07138
- (r) 639 N. 10<sup>th</sup> St Bates # 07137

S. 4<sup>th</sup> Street

- (s) 405 S. 4<sup>th</sup> St Bates # 07149
- (t) 354 Pine St (4<sup>th</sup> and Pine Sts) Bates # 07152
- (u) 114 S. 4<sup>th</sup> St Bates # 07143
- (v) 134 S. 4<sup>th</sup> St Bates # 07146

1000 block of Moss Street

- (w) Looking north from 1008 Moss
- (x) Looking south from 1020 Moss
- (y) Looking north from 1007 Moss
- (z) Looking north from 1027 Moss

For all 4 pictures of 1000 Moss, there is no entry into the Bates system. After it was discovered that the shots taken in 2016 had failed to develop, Mr. Slifko took these new pictures on 6/27/18, and he now verifies as to their authenticity.

1000 block of Cherry Street

- (aa) 1022 Cherry (Humacao license) Bates # 07036
- (bb) 1026 Cherry (trash around meter) Bates # 07039
- (cc) 1022 Cherry (carpet near meter) Bates # 07041

(There are 2 more meter pictures that were mistakenly filed with the Cherry Street series. These 2 pictures should be discarded.)

JS – 26      Picture of 774 Schuylkill Avenue trip hazard

- (a) 774 Schuylkill Ave      For this actual picture, there is no entry into the Bates system. However, Bates # 03398 shows a very similar shot.
