**Sunoco Pipeline LP**

**Public Meeting: December 20, 2018  
3006116-OSA**

**Docket Nos: C-2018-3006116;  
P-2018-3006117**

**STATEMENT OF VICE CHAIRMAN ANDREW G. PLACE**

The matter before us is procedural in nature, in that there is a defined regulatory review period when certified questions are addressed to the Commission. This case is not unique, in that this Commission must perform due diligence to comprehensively review all of the pleadings to address the matter. There was insufficient time to adequately adjudicate this case by today's Public Meeting given the docket's procedural schedule, subsequent filings and significant factual issues. That said, I encourage expeditious review and would support disposition, if warranted, by the addition of a Public Meeting before the next regularly scheduled January 17<sup>th</sup> Public Meeting.
