Written Comments (may attach additional sheets):

No relief in settlement, rather a near 50% increase.
If usage; availability of Aqua's services are equal across zones, what consideration is there for those not using these services as often - - small households, seniors, single homes, 1 household member vs 3 or 4?
what incentive is there to conserve to help keep costs down, rates low if a single household is paying the same or more than a larger household?
