**METROPOLITAN EDISON COMPANY/PENNSYLVANIA ELECTRIC
COMPANY SUSTAINABLE ENERGY FUND**

Introduction

In 2000, First Energy established the Metropolitan Edison Company Sustainable Energy Fund at Berks County Community Foundation and the Penelec Sustainable Energy Fund at the Community Foundation for the Alleghenies. Berks County Community Foundation and the Community Foundation for the Alleghenies are 501(c)3 nonprofit organizations located in Reading and Johnstown, respectively.

The funds work together under the guidance of a joint volunteer advisory committee and in accordance with each organization's bylaws. The purpose of the funds is to promote:

- the development and use of renewable energy and clean energy technologies;
- energy conservation and efficiency;
- sustainable energy businesses; and
- projects that improve the environment in the companies' service territories as defined by their relationship to the companies' transmission and distribution facilities.

The funds fulfill this purpose by seeking, vetting, and awarding grants, loans, and equity investments that benefit the ratepayers in the geographic territories within Pennsylvania served by Met Ed and Penelec.

From January 1, 2019, to December 31, 2019, the Metropolitan Edison Company/Pennsylvania Electric Company Sustainable Energy Fund (Met-Ed/Penelec SEF) approved financing totaling \$453,452.

Representative Fund Outreach Activities 2019

Each year, the staff members who manage the Met-Ed/Penelec SEF on behalf of the Community Foundations participate in activities designed to raise awareness of Met-Ed/Penelec SEF activities. From January 1, 2019, to December 31, 2019, that outreach included the following activities:

- Community Foundation staff presented information about the Met Ed/Penelec Sustainable Energy Fund at multiple events throughout the territories, including grantwriting workshops and community financing sessions, and attended workshops and conferences related to energy efficiency.

- Staff maintained the Met Ed Penelec Sustainable Energy Fund website and Facebook pages, updating pages as appropriate and posting on Fund activities and topics related to energy efficiency and clean energy technologies.

Representative Program Specific Activities 2019

- Based on the “Pennsylvania Clean Energy Projects” report that the Advisory Committee commissioned in 2018, strategic grantmaking priorities had been identified for 2019 to address stakeholders’ biggest needs and obstacles pertaining to development of clean or renewable energy projects. These include:
 1. Providing up-front capital where needed in the form of grants or program-related investments to advance projects and support renewables (traditional work);
 2. Providing grants to support education, training, and workforce development in the renewable/sustainable energy field;
 3. Supporting energy efficiency efforts by providing grants for the creation of educational materials and grants or program-related investments to support buildings and retrofits; and
 4. Providing grants to support research and development efforts at colleges and universities, particularly for programs that will close the gap on the cost difference between traditional energy technologies and renewables.
- Beginning in January, staff developed applications related to these guidelines, as well as a communication plan for each. This included:
 1. determining the appropriate audience and geographical reach;
 2. developing the appropriate messages based on the goals of each priority;
 3. determining the best tactics to reach each audience with the messages; and
 4. overseeing the creation of materials for each tactic, as appropriate.
- Throughout the year the community foundations provided all fund management operations, including monthly loan servicing, collection, due diligence on grant and loan applications, site visits, phone and email correspondence with prospective applicants, PUC correspondence, and investment management and reporting.
- Staff conducted educational tours of the Berks County Community Foundation Platinum LEED building.
- Staff maintained the historical/geographical/technological mapping of SEF activity to ensure the map created in 2014 remained current and available on the website.

Davitt Woodwell	Rep. Environmental	Term Expires 12/31/2020
Dave Vollero	Rep. Indep. Power Producer	Term Expires 12/31/2021

The advisory committee met four times in 2019. In 2019, the committee had two openings, an Independent Power Producer representative and an At-Large representative. Work. The Independent Power Producer position was filled and approved by the PUC in late December 2019.

Review of Technologies and Sample of Met-Ed/Penelec SEF Implemented Projects

The Met Ed Penelec Sustainable Energy Fund maintains and updates the list below to show the projects that have been funded and how they fit into the different sustainable and renewable energy tiers as defined by the Commonwealth. This list represents projects since the funds were created.

Tier I Projects:

Solar Photovoltaic

- Silicon cell panels – Hundredfold Farm and French Creek Ridge
- Printed electronics – Plextronics
- Solar installer training – Conservation Consultants
- Solar lighting – 2nd & Oley playground
- Solar lighting – Welcome sign to City of Reading
- Solar cell panels – Lacey Electric
- Solar cell panels – Rodale Institute
- Solar array – Scottish Heights
- Solar cell panels – Epiphany
- Solar panels/inverter – Sandusky Lee
- Solar panels – Phipps Conservancy
- Solar concentrator dish production – CEWA

- Manufacturing solar grade silicon – One Solar
- Solar panel installation – Leg Up Farm
- Solar lighting installation – Reading Rising Park
- Solar panels – Cambria County Transit Authority
- Concurrent Technologies Corporation
- Sally’s Cider Press
- RiverPlace

Conclusion

With the guidance of an expert advisory committee and professional financial and operational oversight from Berks County Community Foundation and the Community Foundation for the Alleghenies, the Met Ed Penelec Sustainable Energy Fund has had a successful year meeting its purpose to promote:

- the development and use of renewable energy and clean energy technologies;
- energy conservation and efficiency;
- sustainable energy businesses; and
- projects that improve the environment in the companies' service territories, as defined by their relationship to the companies' transmission and distribution facilities.

From January 1, 2019, to December 31, 2019, the Metropolitan Edison Company/Pennsylvania Electric Company Sustainable Energy Fund (Met-Ed/Penelec SEF) approved financing totaling \$453,452.

The funds are honored to continue to fulfill this purpose by seeking, vetting, and awarding grants, loans, and equity investments that benefit the ratepayers in the geographic territories within Pennsylvania served by Met-Ed and Penelec.
