Rosemary Chiavetta, Secretary Pennsylvania Pubulic Utility Commission Commonwealth Keystone Building, 2nd Floor 400 North Street Harrisburg, PA 17120

Re: Duquesne Light Company – Transmission Service Charge Annual Update

Dear Secretary Chiavetta:

Enclosed for filing is an original copy of Duquesne Light Company's ("Company") annual Transmission Service Charge ("TSC") update. Pursuant to the Company's Commission-approved tariff, Duquesne Light Company updates its TSC rates on June 1st of each calendar year or more often upon determination that the rates then in effect would result in a significant over or under collection. The Company is also required to file revised TSC rates with the Pennsylvania Public Utility Commission on or about May 1st.

The rate schedule herein provides the Company's best estimate of the transmission revenue requirement and rates for the period of June 1, 2020, through May 31, 2021. Pursuant to the Secretarial Letter entered April 16, 2020, at Docket No. D-2018-3003725, this rate schedule implements the Commission's recommended adjustments contained in the *Report on the Statements of Transmission Service Charge*, released April 16, 2020. Final proposed rates will be filed on or about May 15, 2020, to become effective June 1, 2020.

Should you have any questions, please do not hesitate to contact David Ogden, Manager, Rates & Tariff Services, at (412) 393-6343 or dogden@duqlight.com.

Respectfully Submitted,

Michael W. Zimmerman Senior Counsel, Regulatory

(1) On April 19, 2007, the Commission issued Opinion No. 494. In Opinion No. 494, the Commission, found PJM's existing cost allocation method, which used a violation-based distribution factor (DFAX) method to allocate 100 percent of the costs of new transmission facilities that operate at or above 500 kV, unjust and unreasonable and required PJM to allocate 100 percent of the costs of such facilities on a load-ratio share basis (the 100 percent load-ratio share method), to the Merchant Transmission Facilities and Zones of the Responsible Customers pursuant to Schedule 12 of the PJM Tariff. FERC approved PJM's settlement of the 500 KV cost allocation on May 31, 2018 per Docket No. EL05-121-009. Duquesne Light's allocated credits are being refunded through line items 1108 and 1115 on the PJM bill from July 2018 through December 2025.

Duquesne Light Company Transmission Service Charges (TSC) - Retail Tariff Appendix A Network Service (NITS) & Reliability Must Run (RMR) Expenses for the Reconciliation Period - 12 Months Ending February 2020

⁽¹⁾ The revenue requirement is the estimated net zonal revenue requirement in the Company's FERC Formula Filing that will be submitted May 15, 2020, effective June 1, 2020 to May 31, 2021. The net zonal revenue requirement is used to determine the Network Service Rate for the Duquesne zone that is charged to network customers by PJM in accordance with the Open Access Transmission Tariff. PJM charges the Company the Network Service Rate for POLR load.

⁽²⁾ Actual peak load July 10, 2019 at hour 17, by rate class.

⁽³⁾ Revenue requirement allocated to each rate class based on class share of total 1CP.

⁽⁴⁾ Forecast June 2020 to May 2021 sales and billing demand assuming 100% POLR load.

Demand for rates GL, GLH, L, HVPS and UMS is based on the rate class 1CP load in accordance with the tariff.

Rates are calculated at 100% POLR load. Any (over)/under collection will be reconciled in the subsequent year transmission service charge ("TSC") filing through the e-factor charge.

¹⁾ Forecast June 2020 to May 2021 POLR sales and billing demand. For rate classes GL, GLH, L, HVPS and UMS, the forecast June 2020 through May 2021 POLR demand is the forecast 1CP used for billing purposes.

²⁾ As a result of a 2018 PUC audit of the Transmission Service Charge for the period March 2015 through February 2017, it was determined that the Company inadvertently transposed the 1CP for GMH<25 and GMH>25 in the month of March 2016 within its 1307e reconciliation filling. This affected the allocation of RMR, Deferred Taxes, and NITS expenses for Small & Medium C&I customers. The adjustment to expense between classes is \$312,147. The adjustments to refund include interest that was computed at the prime rate from March 2016 through the mid-point of the rate effective period, November 30, 2020. The interest expense totaled \$51,894. The total adjustment includes GRT. See Attachment A, page 13-14 for detailed calculations.

Duquesne Light Company Transmission Service Charges (TSC) - Retail Tariff Appendix A Projected PJM Enhancement Charges

Transmission Enhancement Charges (PJM OATT Schedule 12, RTEP)

Share of Revenue Requirements Allocated to the Duquesne Zone Published by PJM, January 1, 2020

24	Load 1CP (MW)	32.4	809.0	841.5
25	Allocated Charges for Cost Recovery	\$88,109	\$2,197,467	\$2,285,576
17	Forecast 1CP (MW)	395.8	9,913.9	10,309.7
18	Average Charge for POLR Cost Recovery (\$/MW)	\$222.60		

⁽¹⁾ Reflects the change in transmission cost recovery for Large C&I default service Hourly Priced Service (HPS) customers that was adopted as part of the Commission order entered December 22, 2016 at Docket No. P-2016-2543140. Effective June 1, 2017, the Company's Supplier Master Agreement (SMA) will now accommodate Large C&I HPS customers. The transmission cost recovery provisions in the SMA (Appendix D) for Large C&I HPS customers are now similar to that used for other procurement classes.

¹⁾ See footnote 2, Att A, Page 5

²⁾ Interest was computed at the prime rate of interest of the issue month, March 2016 through the mid-point of the rate effective period, November 30, 2020. Per Commission audit order entered February 4, 2020 at Docket No. D-2018-3003725, the adjustments to refund \$112,847 and \$199,300 include interest at the applicable rate.
