Annual Report**

Dear Secretary Chiavetta:

Enclosed please find one confidential and one redacted copy of Constellation NewEnergy, Inc.'s ("CNE") Annual Report for calendar year 2019. We kindly request the Retail Sales to remain confidential as CNE considers our volume information highly proprietary. The retail electric service industry is highly competitive. Our volume information by state is not published; thus, the disclosure of such to competitors, or potential competitors, would be detrimental to CNE.

Please do not hesitate to contact me with any questions regarding this information. My telephone number is 312-681-1855 and email address is [amy.klaviter@constellation.com](mailto:amy.klaviter@constellation.com).

Sincerely,

Amy Klaviter

**NOTE to the Consumer:** Electricity is the product of a mix of generation energy sources that is delivered over a system of wires. This report reflects the estimated percent of total sales based on the primary fuel source used in the generation of electricity for customer end-use in the Commonwealth of Pennsylvania. Some generators may use a combination of fuel sources, such as oil and coal or oil and natural gas, which may be combined or used alternatively. In this instance, only the primary fuel source is reported. Data may also include negative sales for pumped storage hydroelectric operations, which could require the use of any fuel source except hydropower. If any supply source includes Distributed Generation or Combined Heat and Power, the applicable categories will be marked "DG" and/or "CHP." If net metering is deployed, an asterisk (\*) appears within the applicable categories. Upon request by the consumer, electricity providers are required to provide information on generation energy sources, energy efficiency, environmental impacts or personal historical billing data.

**NOTE to the Entity filing this report:** Please review above "Note to the Consumer" for important information needed to adequately complete this form. Verification of the anticipated generation energy source, of the identifiable resources (if and when they have been "claimed") and the fact that energy characteristics were not sold more than once, shall be conducted by an independent auditor at the end of each calendar year and contained in this annual report to the Commission. If generation energy sources are not identifiable, the provider shall disclose this fact.

<sup>1</sup>The generation Constellation procures comes from the PJM wholesale market, as such specific sources for that energy are not known. We are therefore submitting the PJM System Mix Report for 2019 as provided by the PJM Generation Attribute Tracking System ("GATS") as verification of the sources of the generation we supply to retail customers in PA.
