Harrisburg, PA 17120

RE: Petition of Pike County Light & Power for Approval of Its Default Service Plan and Waiver of Commission Regulations and *Nunc Pro Tunc* Treatment for the Period June 1, 2021 through May 31, 2024; Docket No. P-2020-3022988;  
**COMPLIANCE TARIFF FILING OF SUPPLEMENT NO. 86 TO ELECTRIC PA P.U.C. NO. 8**

Dear Secretary Chiavetta:

Enclosed for filing please find Pike County Light and Power Company's Compliance Tariff filing of Supplement No. 86 Tariff Electric PA P.U.C. No. 8 filed in compliance with the Commission's April 15, 2021 Order. Effective June 1, 2021, Supplement No. 86 changes Rules and Regulations for Default Service by adjusting the Electric Supply Adjustment Charge and Statement of Default Service Charge as approved by the Settlement.

Thank you very much for your attention to this matter. Please feel free to contact the undersigned with any questions.

Very truly yours,

*/s/ Bryce R. Beard*

**RULES AND REGULATIONS**

18. DEFAULT SERVICE (Continued)

Electric Supply Adjustment Charge:

(C)

The Electric Supply Adjustment Charge will be calculated every June 1<sup>st</sup> and December 1<sup>st</sup>, the Electric Supply Adjustment shall be determined by comparing the Default Service costs incurred for the month with the Default Service revenues. Default Service costs shall include: actual capacity, energy and ancillary service costs; and prior period electric supply adjustments. Default Service revenues shall include revenues billed through the Market Price of Electric Supply and the Electric Supply Adjustment Charge.

Actual Default Service costs will be divided by the total actual Default Service sales for the period being reconciled to determine the overall average rate that would have made the Company whole for the period, on an aggregate basis. The resulting average rate will then be utilized to estimate the over or under collection applicable to each service classification. The resulting monthly service classification-specific over or under collections will be added together for the six months comprising the period being reconciled and then divided by estimated service classification-specific Default Service sales for the subsequent 12-month period such that over or under-collections occurring over a six-month period would be collected over the subsequent 12-month period in which the Electric Supply Adjustment Charges will be billed. The resulting service classification-specific Electric Supply Adjustment Charges will then be increased to permit recovery of Gross Receipts Tax.

Additionally, costs associated with Company's compliance with the Alternative Energy Portfolio Standard shall be included as part of the supply costs and included, as needed, in the Electric Supply Adjustment Charge set each period.

For any given six month period, the Electric Supply Adjustment Charges, including Gross Receipts Tax, shall not exceed a charge or a credit of 2.0 cents per kWh. In the event the 2.0 cents per kWh limit is imposed, any remaining over or under collection balance shall be included in the subsequent period's Electric Supply Adjustment Charges to the extent possible within the 2.0 cents per kWh limitation. Interest on under collections will be determined at the Legal Rate of Interest. Interest on overcollections will be determined at the Legal Rate of Interest plus two percent.

Statement of Default Service Charge:

Default Service Charges shall be determined every six months to be effective for bills to be rendered during the following billing periods. The billing period shall be defined as the six months beginning June and December.

Not less than three business days prior to a proposed change in the Default Service Charge, a "Statement of Default Service Charge" ("Statement") showing the Default Service Charge for each applicable customer class and the effective date of such Statement, will be filed with the Commission, apart from this Tariff. Such Statement shall be available to the public at Company offices and on the Company's internet website.

(C) Indicates Change
