*The Commission’s Order requires “...the information shall first be filed by the 15th of July 15th, relevant to the 2nd quarter of 2021, and thereafter, by the 15th of the month following the quarter.” For this request, CenturyLink has defined “accounts at risk of termination” as accounts with **any** past due balances more than 30 days in arrears at the end of the respective month identified. **Therefore, the total number of accounts reflected above overstates the number of accounts that would be subject to termination.** Furthermore, the amount of “total aggregate \$ in Arrears” includes accounts with **any** past due amounts for services both jurisdictional and non-jurisdictional.

** It will continue to be difficult to provide a comprehensive response to subpart c. In part, the Commission’s Order of March 18, 2021 stated that “The utility service termination moratorium is lifted, and disconnections may commence effective April 1, 2021.” As a general matter, the process for disconnections has requirements that do not begin on the day the disconnections may commence and therefore alignment with the Order’s dates and tracking becomes highly complicated. Moreover, CenturyLink has not fully implemented its collection process in

Pennsylvania despite the authorization under this order. CenturyLink has made available payment plan arrangements for residential and non-residential customers impacted by COVID and therefore disconnect activity continues to be minimized through the time period reflected in this response.

CenturyLink has not identified any additional customers that have been disconnected for non-payment for the time period identified in this response. If the data proves to be different for this subpart of the question, CenturyLink will provide updated information in future reports.
