

Erika Hawk  
416 Northampton Rd Tobyhanna

2/9/24

Last January ( Jan2023) I received a bill that was over 3000kw for the month. I NEVER have had a bill that high. When I called they said that it was an estimate because they were not able to get to my meter due to snow. I was told they would fix it and they never did. I paid over \$400 for electricity that month.

I agree with this settlement.
