I was so pleased to see the article about PPL rates in the Hagleton Standard Speaker 2-7-24.

I keep records of all my bills - enclosed please see my bills totals per month for each of the years - 2021, 2022 and 2023.

As you can see my yearly total went up \$1,848.⁸² from 2021 to 2022. I feel there was an awful mistake made between these 2 years. I also included years 2022 + 2023 both are pretty consistent. But I feel it went up in 2022 by an incredible amount, when I called of course I was given excuse after excuse. I've changed suppliers a few times still off the wall bills. I appreciate any help you can afford me. I'm not eligible for help even though we live paycheck to paycheck. Please note highlighted figures.

Thank You
Patrice Mussoline
