Dear Sir/ Madam:

I am writing this letter to bring your attention that i am not satisfied with your services regarding the electricity billing errors that occurred in january, february and march, my billings during this period of time were more than \$1200, and i said before i live alone, and work 12hrs a day and im barely at home.

So now that you have accepted your mistake, im waiting for you to refund my money like thousands of people im sure.

Sincerely,
