To whom it may concern,

This is in reference to PUC docket  
# 2023-3038060 - PUC concerning  
billing errors that occurred.

When I received my bill, I  
almost had a heart attack. I didn't  
expect a bill so high.

I live on a ~~flat~~ fixed income &  
can't handle any more raises.

I think they should take respon-  
sibility for their errors. They should  
absorb the cost & not pass them  
onto customers. This is my electric bill
