General information: Generation prices and charges are set by the electric generation supplier you have chosen. The Public Utility Commission regulates distribution rates and services. The Federal Energy Regulatory Commission regulates transmission prices and services.

Understanding Your Bill

- Act 129 Compliance Rider** - Monthly charge to recover costs for energy efficiency and conservation programs approved by the PUC.
- Budget Billing** - Most suppliers offer budget billing, which allows you to pay a fixed amount each month. Budget billing averages bills out over 12 months, so each monthly bill will be the same amount until the total bill is paid. The company may adjust the bill four times a year, up or down, depending on the customer's use. Residential customers may contact their electric utility and/or supplier and request budget billing at any time.
- Customer Charge** - The basic service charge to partially cover costs for billing, meter reading, equipment and service line maintenance. If you select a new supplier, the name, address and telephone number for both your distribution and supplier company will appear on your bill.
- Distribution Charge (Delivery)** - Part of the basic service charges on every customer's bill for delivering electricity from the electric distribution company to your home or business. The distribution charge is regulated by the Public Utility Commission. This charge will vary according to how much electricity you use.
- Kilowatt-hour (kWh)** - The basic unit of electric energy for which most customers are charged in cents per kilowatt-hour. A kilowatt-hour is the equivalent of using ten 100-watt light bulbs for one hour.
- kWh Delivered** - The amount of electricity we delivered to you for your use.
- System Improvement Charge** - Monthly charge to recover costs for improving, repairing and replacing equipment that delivers electricity to your home or business.
- Smart Meter Rider** - Monthly charge to recover costs associated with the smart meter programs approved by the PUC.
- State Tax Adjustment Surcharge** - Monthly charge or credit to reflect changes in various state taxes. The surcharge may vary by bill component.
- Tax Cut and Jobs Act Credit** - Monthly adjustment for federal tax changes.
- Type(s) of Meter Readings:**
- Actual** - Measures your monthly electricity use based on an actual reading.
